The Flight of the Sparrow

Talsy and Chanter return to the peaceful vale, where she gives birth to his son - a creature of the chaos. Travain has stunted Mujar powers and a Trueman personality, making him dangerous and unpredictable, and he is also angry at his father's apparent neglect. Mujar, however, do not care for their children, who are born fully formed and independent. Travain grows quickly, and is everything Chanter warned Talsy he might be. Chanter finds the last piece of the broken Staff of Law and makes it whole, but the laws are lost. His first son is born on the eastern continent they left behind so long ago, but he is blinded by strange golden lights in his mind. He names himself Law, and finds shelter in a hive of semi-ants. The next generation are manants, and attack him, forcing Law to flee into the chaos. In his search for shelter, he travels to the western continent, where Truemen capture him. The wind informs Chanter of his plight, and Talsy insists that they save him. That means venturing into the chaos once more, and now it is far worse than it was before.

The Vanishing Chemist

LOVE RISES is pure, well, not so pure, fiction based on fact. A young Confederate lieutenant and a daring, older woman break all the taboos of the South in their efforts to survive a war-shattered world. When the Civil War ends, dashing Confederate Lieutenant Charlie Irving helps Julia's husband, General Robert Toombs, flee to France to avoid Union charges for treason. For years, Charlie has lusted after Julia even though she is a married woman twenty years his senior, and the South's most celebrated beauty. Under Charlie's smoldering looks, Julia goes weak in the knees and dreams of falling with Charlie on the thick, Persian carpet in her mansion's parlor. The aftermath of war offers a world based on survival and a chance to explore their passion if the two can survive the North's continuing effort to crush the South. But Julia still loves her husband, and code-of-honor-bound Charlie has sworn to take care of Julia in the General's absence. Is General Toombs' desperate plea to Charlie to do whatever is necessary to keep his wife safe and happy, curse or blessing on what the future holds?

Law for Business

Forward By Rod Machado CFII - Anyone who has earned a pilot certificate is intimately familiar with the cost of that endeavor. You invest your time and money-large blocks of daylight hours spread out over many months and literally thousands of dollars-to earn the privilege of taking a flying machine into the air. Your watch and wallet, however, say nothing about the blood, sweat, and tears involved in this enterprise. You had to overcome frustration, confusion, and self-doubt as you learned to move a piston-powered conveyance safely from one airport to the next. Congratulations to you Yours is a magnificent accomplishment. Now hear this. Everything that you earned and learned can be taken away from you instantly by putting the wrong little pill in your mouth. That's right. Take an unapproved medication (one that's not sanctioned by the FAA), and your friendly aviation medical examiner (AME) suddenly becomes the repo man. As a representative of the FAA, the good doctor is obliged to repossess (so to speak) your medical certification to act as pilot in command because you no longer meet the FAA's standards. Sure, you might eventually reclaim your medical certificate, but not without further investment of your time and money. There may be a pain pill big enough to assuage the headache this causes, but there's no way to swallow it. In an ideal world, this wouldn't matter much. Your AME would tell you to go back to your physician, have him or her prescribe a drug that's approved by the FAA, then return to pick up your medical certificate. No muss, no fuss, no extensive and expensive FAA involvement. Unfortunately, the only place on earth where this commonsense approach could happen is in Fantasyland at the Disneyland theme park. Ultimately, you are responsible for knowing what medications or medical procedures are acceptable to the FAA for the maladies that affect you. Until now, it was a megaorder challenge to identify these medications. Here is where fortune smiles on you. My friend, Dr. Larry Diamond's new book, *The Pilot's Primer for Prescription Medications*, is the resource that should be in every pilot's library, if not flight bag. Dr. Diamond's book is the pilot's practical resource for prescription medication. It's easy to navigate, easy to read, and easy to use. It's your initial source for identifying the medications that the FAA considers acceptable at this point

in time. So prepare for your next medical examination by reading Dr. Diamond's book now, not later. Make sure the medications you're taking (if any) or are planning on taking are on the FAA's approved list. If not, do something about it before your AME does. Following the advice put forth in this valuable book will keep you from being unpleasantly surprised during your next visit to the AME. Take it from me-Dr. Larry Diamond knows what he is talking about. He's a master of medical molecules whose informative new book will keep you airworthy for many years to come.

A novel in seven stories These stories trace the arc of a family narrative in which mothers abandon their children for the best of reasons, fierce daughters reclaim their heritage, and the gap between spiritual health and the expectations of LDS culture affects the outcome of every episode. Poet Annie MacDougal, feminist Riva Maynard, and Riva's daughter Katie spiral in and out of these seven "incidents" spanning more than three decades, along with the men and women they learn from and love. "Just as God's eye is on the sparrow, Julie Nichols's clear-sighted, penetrating eye is on the lives of Mormon women and men and our yearnings and shortcomings." -Joanna Brooks, *Book of Mormon Girl* "These linked stories . . . are consistently faithful and questioning, intelligent and spiritual, essentially Mormon and essentially inclusive of those who inhabit the fringe." -John Bennion, *Falling Toward Heaven* "In this intricately patterned collection, [Nichols] addresses the violence, mystery, and most of all the messy beauty of marriage, motherhood, love, and forgiveness in a lush, lyrical prose which honours the magical in the everyday." -Jenn Ashworth, *The Friday Gospels*

Described as, "A subversively comic, action packed, quirky, coming of age, paranormal, science fiction, fantasy adventure for young adults and adults who still think of themselves as young adults," Douglas Lieblein, one of the writers and Executive Producers of Hannah Montana and Life With Boys, has created a debut novel full of unorthodox adventures, shocking surprises and a controversial hypothesis regarding humanity's symbiotic relationship with myth and the supernatural. Business Teacher

A substantial chapter of World War II is resurrected in this sometimes tragic tale of one family's flight from their Latvian homeland and subsequent uncertainty as displaced persons. On the day Dagnija Neimane's parents married in 1940, the Soviet Russians killed the Latvian border guards, leading to the first Soviet occupation of their country. The following months culminated in the Year of Horror, with mass arrests, executions, and deportations of fifteen thousand Latvians to Siberia. Though Nazi Germany drove off the invaders and in turn occupied Latvia, in 1944 the Soviets gained the upper hand once more. Some Latvians joined the German forces to fight the Soviets, others who could, formulated plans for escape, wondering if there was hope left for their country. Flight from Latvia is a true narrative of an extended family's exile and journey through refugee camps to find a safe home once more. The narrator, only a youngster at the time, derives details from family stories and periodicals to relay this significant chapter of her family's history. Children, parents, even elderly grandparents flee together as a family-though conditions for food and health are abysmal. Now, having come this far, who would be selected for emigration?

Fifty Years of Europe, 1870-1919

"Light as air is poignant, pacific , yet passionate plea for wholeness and benevolence on our planet. In spite of mammoth industrialization, economic and educational strides undergirded by rapid technological advances. We still see unbridled selfishness, unmitigated corruption, and brazen terrorism reigning supreme. Mezmurah's poem, In the middle, say it all: Turned-In fingers that make a fist, a sign of bellicosity, should instead form an open clasp, the signal of brotherhood peace and communal relationship."
