The Official CHFI Study Guide (Exam 312-49)

This collection of short stories, including many new translations, is the first to span the whole of Japan's modern era from the end of the nineteenth century to the present day. Beginning with the first writings to assimilate and rework Western literary traditions, through the flourishing of the short story genre in the cosmopolitan atmosphere of the Taisho era, to the new breed of writers produced under the constraints of literary censorship, and the current writings reflecting the pitfalls and paradoxes of modern life, this anthology offers a stimulating survey of the development of the Japanese short story. Various indigenous traditions, in addition to those drawn from the West, recur throughout the stories: stories of the self, of the Water Trade (Tokyo's nightlife of geishas and prostitutes), of social comment, love and obsession, legends and fairytales. This collection includes the work of two Nobel prize-winners: Kawabata and Oe, the talented women writers Hirabayashi, Euchi, Okamoto, and Hayashi, together with the acclaimed Tanizaki, Mishima, and Murakami. The introduction by Theodore Goossen gives insight into these exotic and enigmatic, sometimes disturbing

stories, derived from the lyrical roots of Japanese literature with its distinctive stress on atmosphere and beauty.

A stranger's murder in the dark alley behind May's Flower Shop is causing the residents of Park Place, South Carolina to keep their children inside and their doors locked at night. Banty Hen Antique Shop owners, Sam and Valerie Owens, are caught right smack dab in the middle since they were the last ones to see the victim alive. Valerie's new venture, the Sweet Tea Quilting Bee is comprised of an eclectic mix of women, calling themselves 'newbies' and 'oldies' in the art of quilting. Their weekly meetings help keep Valerie's mind off the murder, but it's hard to keep the secret from the ladies that the victim was killed over, of all things, a quilt! The murder suspect has been described as tall and thin, a pitifully vague description, but Police Chief Jess Hamilton and his new detective, a self-described Columbo, are on the case, questioning every tall and thin person in town. Even Sister Margaret, a nun who has just begun her mission at St. Gabriel's Catholic Church, doesn't go unnoticed. But it's hard not to notice a nun who dances, and sings along with country music when she thinks no one's watching.

The Promised Messiah

Over the last century, the Everglades underwent a metaphorical and ecological transition from impenetrable swamp to endangered wetland. At the heart of this transformation lies the Florida sugar industry, which by the 1990s was at the center of the political storm over the multi-billion dollar ecological "restoration" of the Everglades. *Raising Cane in the 'Glades* is the first study to situate the environmental transformation of the Everglades within the economic and historical geography of global sugar production and trade. Using, among other sources, interviews, government and corporate documents, and recently declassified U.S. State Department memoranda, Gail M. Hollander demonstrates that the development of Florida's sugar region was the outcome of pitched battles reaching the highest political offices in the U.S. and in countries around the world, especially Cuba—which emerges in her narrative as a model, a competitor, and the regional "other" to Florida's "self." Spanning the period from the age of empire to the era of globalization, the book shows how the "sugar question"—a label nineteenth-century economists coined for intense international debates on sugar production and trade—emerges repeatedly

in new guises. Hollander uses the sugar question as a thread to stitch together past and present, local and global, in explaining Everglades transformation.

The George W. Bush Quiz Book

The journal of the Brainerd Mission is an indispensable source for understanding Cherokee culture and history during the early nineteenth century. The interdenominational mission was located in the heart of Cherokee country near present-day Chattanooga. For seven years the Brainerd missionaries kept a journal describing their lives and those of their charges. Although the journal has long been recognized as a significant primary document, it was not fully transcribed or made widely available until now. The journal entries provide a richly textured and sensitive look at Cherokee life and American missionary activities during the early nineteenth century. They shed new light on the daily lives and personalities of individual Cherokees, as well as on poorly understood aspects of Cherokee politics and religion. The journal provides interesting ethnographic details concerning Cherokee council meetings, ceremonial occasions, gender relations, and the internal social and political tensions among families. Of equal interest are the complex and often conflicted attitudes of the missionaries, who were interested in Cherokee traditional culture but simultaneously worked to change it.
