[A]fter seeing their Iraq strategy unravel, North Korea get ignored, and the state of Palestine remain a wishful dream-I would dare say that the Bush Administration's foreign policy also needs substantive tuning. In the ultimate, if U.S. foreign policy is made more consistent with our core values, and the Bush Administration uses traditional diplomacy to further policy goals, its Second Term might turn out to be a memorable "American Intifada"! The Bush Diaries captures the true meaning of "freedom and democracy" by allowing an average American citizen to be heard. Author Jack Nargundkar comments, in real time, on the performance of not only President Bush, but also the pundits in the media who evaluate the presidency. The Wall Street Journal editorialized that the Bush economy had performed in a stellar fashion in 2002. The facts indicated something quite to the contrary-thus began Nargundkar's next couple of years of furious letter writing. Largely based on those letters as well as articles submitted to The Washington Post, The Wall Street Journal, and The New York Times, The Bush Diaries is a chronicle of Nargundkar's views of the George W. Bush era from 2001 to 2005.

## **Twenty Fathoms Down**

"In recent years the debate on multiculturalism in the UK and other Western societies has focused principally on Islam, and the specific 'problems' said to be posed by Muslims have been invoked to justify the claim that multiculturalism has failed. That claim is opened to scrutiny and challenged in this unique collection through a series of explorations of specific issues and controversies - including the question of the veil, crime, political Islam, the role of Muslim women, sexuality and the Danish cartoons affair - and through more general reflections on the nature of multiculturalism. By exploring the nature of cultural differences and sensitivities and examining the way conflicts have played out, this challenging book makes a wide-ranging contribution to debate and a more constructive inter-cultural engagement. The contributors draw upon the disciplines of social science, ethics, theology, philosophy and education to examine the nature of the issues and flashpoints and to draw out implications for theory, policy and practice." --from back cover.
