The contents of this book fall under two sections. Section-I consists of three exhaustive chapters, one in English and two in Tamil, dealing with all aspects of the Art of Translation and also providing an in-depth analysis of the problems of translating texts from Tamil into English in general and poetry in particular. These chapters form a strong theoretical basis for Section-II. Section-II contains select poems of five representative poets of the modern era, namely Na. Pichamurthy, Sirpi Balasubramaniam, Abdul Rahman, Manushya Puthiran and Tamizhachi Thangapandian, and their corresponding translations in English by me with a view to providing a practice-oriented approach to the process of translating Tamil poetry into English. In addition, each poet is briefly introduced highlighting the salient features of their poetry. In my approach, I have tried to be very close to the original texts literally and idiomatically as far as possible, and so consciously avoided more sophistication in translating them. The immediate purpose of this book is to offer certain practical insights into the various aspects of translation and help teachers and students of literature to grasp with ease the nuances of translation through model exercises. At the same time I fondly hope that this book will kindle the interest of anyone who has a natural bent for translation.

### **Notes on Love in a Tamil Family**

Love, as a force in human affairs, is still not given much attention or credency by social scientists. With Notes on Love in a Tamil Family, Margaret Trawick places the notion of love prominently in social scientific discourse. Her unforgettable and profusely illustrated study is a significant contribution to anthropology and to South Asian studies. Trawick lived for a time in the midst of one large South Indian family and sought to understand the multiple and mutually shared expressions of anpu--what in English we call love. Often enveloping the author herself, changing her as she inevitably changed her hosts, this family performed before the young anthropologist's eyes the meaning of anpu: through poetry and conversation, through the not always gentle raising of children, through the weaving of kinship tapestries, through erotic exchanges among women, among men, and across the great sexual boundary. She communicates with grace and insight what she learned from this Tamil family, and we discover that love is no less universal than selfishness and individualism.
