Evaluation to Improve Learning

With an afterword by Natasha Wimmer. Winner of the Heralde Prize and the Rómulo Gallegos Prize. Natasha Wimmer's translation of *The Savage Detectives* was chosen as one of the ten best books of 2007 by the Washington Post and the New York Times. *New Year's Eve 1975*, Mexico City. Two hunted men leave town in a hurry, on the desert-bound trail of a vanished poet. Spanning two decades and crossing continents, theirs is a remarkable quest through a darkening universe – our own. It is a journey told and shared by a generation of lovers, rebels and readers, whose testimonies are woven together into one of the most dazzling Latin American novels of the twentieth century.

This publication highlights the need for test developers to provide clear explanations of the ability constructs which underpin tests offered in the public domain. An explanation is increasingly required or if the validity of test score interpretation and use are to be supported both logically and with empirical evidence. The book demonstates the application of a comprehensive test validation framework which adopts a socio-cognitive perspective. The framework embraces six core components which reflect the practical nature and quality of an actual testing event. It examines Cambridge ESOL writing tasks from the

following perspectives: Test Taker, Cognitive Validity, Context Validity, Scoring Validity, Criterion-related Validity and Consequential Validity. The authors show how an understanding and analysis of the framework and its components in relation to specific writing tests can assist test developers to operationalise their tests more effectively, especially in relation to criterial distinctions across test levels.

IB Spanish B, Skills and Practice

A smart, funny, poignant, very modern autobiographical coming-of-age novel, written when the author was sixteen years old. Like *Catcher in the Rye*, *Crazy* appeals to the teenager in us all. Benni himself is partially paralyzed and a serial failure (he's been kicked out of four boarding schools in his short life and has just entered his fifth). So he's a little odd, but he's cool and he finds other strange boys to hang with. Together they set out to experience what they can: girls, booze, sex, philosophy, drugs, sex, books, music, sex—pretty much everything whatever. And Benni lets us in on "the crazy life" he figures is the only way to deal with the crazy world. From the Trade Paperback edition.
