Using a single Maryland elementary school as a model, a journalist explores the

implications of educational reforms for a typical American elementary school, revealing how school budgets and teachers' salaries depend on students' test scores.

Physics

Math 5 / 4

Physics is equally appropriate for average and gifted students. The entire program is based on introducing a topic to a student and then allowing them to build upon that concept as they learn new ones. Topics are gradually increased in complexity and practiced every day, providing the time required for concepts to become totally familiar.
