The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects

## **475 Tax Deductions for Businesses and Self-Employed Individuals**

Are you paying more taxes than you have to? The IRS is certainly not going to tell you about a deduction you failed to take, and your accountant won't catch everything. This invaluable book not only lists the individual items that are deductible in your home-based business—from utilities to that part of the home where you work—but also explains where to list them on your income tax form.

## **Proceedings of the Annual Conference on Taxation**

Do you know the #1 tax question asked by self-employed people? "What's deductible?" Do you know where to find the answer? Right here. With easy-to-understand, "plain English" explanations, best-selling author Wayne Davies takes you line-by-line through Schedule C and reveals over 101 legitimate tax deductions for sole proprietors. No technical gobbledygook. No fancy jargon that only a tax lawyer can understand. This book is written for you, the typical self-employed person who needs straightforward, practical advice on what you can deduct that will reduce your taxes, put more of your hard-earned money in your pocket, and allow you to sleep well at night - without any fear of an IRS audit. If you're self-employed (either full-time or part-time) and need help knowing what's deductible, this book is for you. Freelancers, consultants and small businesses of all shapes and sizes will benefit from

the no-nonsense information provided. If you're an independent contractor and report your business as a sole proprietorship, you need this book to make sure you're not missing out on the deductions you're entitled to take. SPECIAL BONUS: Included with the book are tax consulting coupons worth \$150. These coupons give you a free 30-minute phone consultation with the author, so you can pick his brain and get answers to any questions you may have about the deductions presented here. Wayne will also do a free confidential review of your most recently filed tax returns (business and personal), to see what deductions you might have missed and to offer advice on what tax strategies to use going forward.

Maximize your bottom line with the nation's most trusted small business tax guide J.K. Lasser's Small Business Taxes 2020 is the small business owner's ultimate guide to a money-saving, stress-free tax season. Providing straightforward advice from the nation's most trusted tax expert on small business taxes, this book gives you the answers you need quickly, with clear, concise guidance. Updated to cover changes from the Tax Cuts and Jobs Act and other legislation, this edition also includes an e-supplement covering additional developments from Congress and the IRS to keep you fully up-to-date. A complete listing of all available business deductions and credits helps you identify those you qualify for, and includes critical information on dollar limits, recordkeeping requirements, and how to actually take the write-off—all the way down to the IRS form to use. Organizational and planning strategies help you get through the process quickly and with fewer headaches, and this year's changes to the tax laws are explained in terms of how they affect your filing. Keeping up with the intricacies of tax law and filing is a full-time job—but it's not your full-time job. You have a business to run. This book gives you the

Are you paying more taxes than you have to? The IRS is certainly not going to tell you about a deduction you failed to take, and your accountant is not likely to take the time to ask you about every deduction you're entitled to. As former IRS Commissioner Mark Everson admitted, "If you don't claim it, you don't get it. That's money down the drain for millions of Americans." This invaluable book, updated to reflect changes in tax law, not only lists the individual items that are deductible—from Internet domain name costs to theft losses—but also explains where to list them on your income tax form. "Tax law isn't easy," the author explains, "but this book is." The twelfth edition will be completely updated to include new changes in tax law, a chapter on home-based businesses, and

Despite its theoretical elegance, the standard optimal tax model has significant limitations. In this book, Joel Slemrod and Christian Gillitzer argue that tax analysis must move beyond the emphasis on optimal tax rates and bases to consider such aspects of taxation as administration, compliance, and remittance. Slemrod and Gillitzer explore what they term a tax-systems approach, which takes tax evasion seriously; revisits the issue of remittance, or who writes the check to cover tax liability (employer or employee, retailer or consumer); incorporates administrative and compliance costs; recognizes a range of behavioral responses to tax rates; considers nonstandard instruments, including tax base breadth and enforcement effort; and acknowledges that tighter enforcement is sometimes a more socially desirable way to raise revenue than an increase in statutory tax rates. Policy makers, Slemrod and Gillitzer argue, would be well advised to recognize the interrelationship of tax rates, bases, enforcement, and administration, and acknowledge that tax policy is really tax-systems policy.
