## Eyes of a Child

An elegant novel set in Prague about the possibility of freedom in an unfree state, from the acclaimed author of *The Songlines* and *In Patagonia* Utz collects Meissen porcelain with a passion. His collection, which he has protected and enlarged through both World War II and Czechoslovakia's years of Stalinism, numbers more than 1,000 pieces, all crammed into his two-room Prague flat. Utz is allowed to leave the country each year, and although he has considered defection, he always returns. He cannot take his precious collection with him, but he cannot leave it, either. And so Utz is as much owned by his porcelain as it is owned by him, as much of a prisoner of the collection as of the Communist state. A fascinating, enigmatic man, Kaspar Utz is one of Bruce Chatwin's finest creations. And his story, as delicately cast as one of Utz's porcelain figures, is unforgettable.

## **Xanathar's Guide to Everything**

In this study of cultural non-conformity in 16th century Florence the author examines how certain individuals could produce alternative literary responses within a dominant, officially-sanctioned cultural milieu that attempted to contain or exclude them.

## **Fascist Virilities**

Fascist Virilities exposes the relation between rhetoric and ideology. Barbara Spackman looks at Italian fascism as a matter of discourse, with "virility" as the master code that articulates and melds its disparate elements. In her analysis, rhetoric binds together the elements of ideology, with "virility" as the key. To reveal how this works, Spackman traces the circulation of "virility" in the discourse of the Italian regime and in the rhetorical practices of Mussolini himself. She tracks the appearance of virility in two of the sources of fascist rhetoric, Gabriele D'Annunzio and F.T. Marinetti, in the writings of the futurist Valentine de Saint Point and the fascist feminist Teresa Labriola, and in the speeches of Mussolini. A critical and timely contribution to the current reappraisal of fascist ideology, this book will interest anyone concerned with the relations between gender, sexuality, and fascist discourse.

## **The Women Artists of Italian Futurism : Almost Lost to History**

Audre Lorde was not only a famous poet; she was also one of the most important radical black feminists of the past century. Her writings and speeches grappled with an impressive broad list of topics, including sexuality, race, gender, class, disease, the arts, parenting, and resistance, and they have served as a transformative and important foundation for theorists and activists in considering questions of power and social justice. Lorde embraced difference, and at each turn she emphasized the importance of using it to build shared strength among marginalized communities. *I Am Your Sister* is a collection of Lorde's non-fiction prose, written between 1976 and 1990, and it introduces new perspectives on the depth and range of Lorde's intellectual interests and her commitments to progressive social change. Presented here, for the first time in print, is a major body of Lorde's speeches and essays, along with the complete text of *A Burst of Light* and Lorde's landmark prose works *Sister Outsider* and *The Cancer Journals*. Together, these writings reveal Lorde's commitment to a radical course of thought and action, situating her works within the women's, gay and lesbian, and African American Civil Rights movements. They also place her within a continuum of black feminists, from Sojourner Truth, to Anna Julia Cooper, Amy Jacques Garvey, Lorraine Hansberry, and Patricia Hill Collins. *I Am Your Sister* concludes with personal reflections from Alice Walker, Gloria Joseph, Johnnetta Betsch Cole, Beverly Guy-Sheftall, and bell hooks on Lorde's political and social commitments and the indelibility of her writings for all who are committed to a more equitable society.

This volume examines the influence of a particular medium, film, on another, the novel, in the first half of twentieth-century American literature. Offering new insights into classics such as *The Great Gatsby* and *The Grapes of Wrath*, as well as discussing critical writings on film and active participation in filmmaking by major writers such as William Faulkner, *Cinematic Fictions* will be compulsory reading for scholars of American film and literature alike.

### **Language and Society in a Changing Italy**

In contemporary feminist theory, the problem of feminine subjectivity persistently appears and reappears as the site that grounds all discussion of feminism. In

Feminism and the Abyss of Freedom, Linda M. G. Zerilli argues that the persistence of this subject-centered frame severely limits feminists' capacity to think imaginatively about the central problem of feminist theory and practice: a politics concerned with freedom. Offering both a discussion of feminism in its postmodern context and a critique of contemporary theory, Zerilli here challenges feminists to move away from a theory-based approach, which focuses on securing or contesting "women" as an analytic category of feminism, to one rooted in political action and judgment. She revisits the democratic problem of exclusion from participation in common affairs and elaborates a freedom-centered feminism as the political practice of beginning anew, world-building, and judging. In a series of case studies, Zerilli draws on the political thought of Hannah Arendt to articulate a nonsovereign conception of political freedom and to explore a variety of feminist understandings of freedom in the twentieth century, including ones proposed by Judith Butler, Monique Wittig, and the Milan Women's Bookstore Collective. In so doing, Zerilli hopes to retrieve what Arendt called feminism's lost treasure: the original and radical claim to political freedom.

## **Shadow's Seduction**

In this new collection of essays, Andrew Feenberg argues that conflicts over the design and organization of the technical systems that structure our society shape deep choices for the future. A pioneer in the philosophy of technology, Feenberg demonstrates the continuing vitality of the critical theory of the Frankfurt School. He calls into question the anti-technological stance commonly associated with its theoretical legacy and argues that technology contains potentialities that could be developed as the basis for an alternative form of modern society. Feenberg's critical reflections on the ideas of Jürgen Habermas, Herbert Marcuse, Jean-François Lyotard, and Kitaro Nishida shed new light on the philosophical study of technology and modernity. He contests the prevalent conception of technology as an unstoppable force responsive only to its own internal dynamic and politicizes the discussion of its social and cultural construction. This argument is substantiated in a series of compelling and well-grounded case studies. Through his exploration of science fiction and film, AIDS research, the French experience with the "information superhighway," and the Japanese reception of Western values, he demonstrates how technology, when subjected to public pressure and debate, can incorporate ethical and aesthetic values.

## **Harley Quinn Vol. 2: Harley Destroys the Universe**

"One of Paul Celan's most important books of poems, *Threadsun* follows the Green Integer press publication of *Breathturn*, which received international critical acclaim. Consisting of 105 poems, arranged in five cycles, *Threadsun* was composed between September 1965 and June 1967. If *Breathturn* was the opening gambit of Celan's "turn," the entry into the late work, then *Threadsun* - the volume that may have received the least amount of commentary and analysis to date - may be said to be not only an extension or continuation of the previous volume, but the full-blown realization of Celan's late work."--BOOK JACKET.

Il y a quelques mois, j'ai obtenu mon diplôme universitaire, et étais bien décidée à mener ma propre vie. Mais aujourd'hui, je dois compter avec Adam Falzon, qui est rentré dans ma vie d'un seul coup. Chef d'une famille du vieux monde réputée impitoyable, il ressemble à un ange déchu. Bien que je sois très attirée par lui, j'ai découvert qu'Adam avait lui aussi des secrets, plus mortels et plus dangereux que ce que j'aurais pu imaginer. Je n'ose pas céder à mes sentiments pour lui. Mais je n'ai peut-être pas le choix. Plus le temps passe, plus je me sens prisonnière d'une toile de désir sombre. Mes chances d'en sortir sont de moins en moins nombreuses. Et pire : je ne suis pas sûre de vouloir m'en sortir.

## **Deadpool: Assassin**

The eminent philosopher and classical scholar Alexander Nehamas presents here a collection of his most important essays on Plato and Socrates. The papers are unified in theme by the idea that Plato's central philosophical concern in metaphysics, ethics, and aesthetics was to distinguish the authentic from the fake, the original from its imitations. In approach, the collection displays Nehamas's characteristic combination of analytical rigor and sensitivity to the literary form and dramatic effect of Plato's work. Together, the papers represent Nehamas's distinct and original contributions to scholarship on Plato and Socrates and serve as a comprehensive introduction to the thought of these two philosophers. In the book's opening section, Nehamas discusses Plato's representation of Socrates as a model of authentic human goodness, showing that Plato's Socrates is a more skeptical, troubling, and individualistic thinker than is usually supposed. The papers in the second section form a sustained defense of a new and important understanding of Plato's theory of the forms and the evolution of that theory in Plato's later writings. The third section examines Plato's contention that popular entertainment--by which he meant Greek epic and tragic poetry--misleads its audience into a debased life, an argument Nehamas relates to modern anxieties about television and other forms of popular culture. The collection also includes a discussion of Plato's use of the dialogue form in his representation of Socrates and

carefully examines the combination of literary and philosophical elements in his work. Nehamas argues in the book that Plato's specific judgments of what is authentic are often flawed, but that his idea of authenticity as the mark of truth, beauty, and goodness is stronger than many modern scholars have assumed. In drawing together Nehamas's many influential ideas about Plato and Socrates, *Virtues of Authenticity* is a major contribution to the study of ancient Greek philosophy.
