This richly illustrated, up-to-date guide offers practical coverage of all aspects of lighting design. Written by an award-winning, internationally known lighting designer, it covers lighting practices, materials, and their design applications and offers guidelines for preparing lighting drawings, control and transfer charts, symbol lists, and other technical specifications. This edition provides a new focus on the use of LEDs, as well as new and expanded coverage of renderings, Mesopic Vision, and the latest controls approaches and systems.

Basic Life Support Instructor Manual

This New American Red Cross CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.

Confetti Girl

"Emotional, hilarious, and thought-provoking." —People "Witty, sexy." —Los Angeles Times #1 Cosmopolitan Best New Books of Summer PureWow Best Reads of Summer From the author of the critically acclaimed "lively and engrossing parable for women of all generations" (Harper's Bazaar) The Regulars, comes a deeply funny and thoughtful tale of a young woman who embarks on an

unforgettable bucket list adventure. Twenty-five-old Lacey Whitman is blindsided when she's diagnosed with the BRCA1 gene mutation: the "breast cancer" gene. Her high hereditary risk forces a decision: increased surveillance or the more radical step of a preventative double mastectomy. Lacey doesn't want to lose her breasts. For one, she's juggling two career paths. Secondly, small-town Lacey's not so in touch with her sexuality: she doesn't want to sacrifice her breasts before she's had the chance to give them their hey-day. To help her make her choice, she (and her friends) creates a "boob bucket list": everything she wants do with and for her boobs before a possible surgery. This kicks off a year of sensual exploration and sexual entertainment for the quick-witted Lacey Whitman. The Bucket List cleverly and compassionately explores Lacey's relationship to her body and her future. Both are things Lacey thought she could control through hard work and sacrifice. But the future, it turns out, is more complicated than she could ever imagine. Featuring the pitch-perfect "compulsively delicious" (Redbook) prose of The Regulars, The Bucket List is perfect for fans of Amy Poepel and Sophie Kinsella.

Selling Power

"A fascinating and frightening book" (Los Angeles Times)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with boathouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned into a nightmare beyond imagining—"this book will scare the hell out of you" (Kansas City Star).

The Best American Sports Writing 1991

The #1 national bestseller and inside story of Steph Curry, the greatest shooter basketball has ever seen. Golden is the first book to provide an all-access look at Steph Curry and the team that has fueled Dub Nation—by longtime Warriors beat reporter and Bay Area News Group sports columnist Marcus Thompson, the go-to expert on all things Golden State. A lifelong Warriors fan turned insider Thompson is uniquely qualified to tell the definitive story of a singular talent, pulling back the curtain on the crazy work ethic and on-court intensity that make Curry great—and the emphasis on family and faith that keeps him grounded. Combining the competitive grit and fun-loving spirit of his mother with the mild demeanor, easy charm, and sharp shooting of his father, former NBA player Dell Curry, Steph Curry derives support and strength from his close-knit kin and his commitment to Christianity. This hard-working, wholesome image however is both a blessing and curse in a League of big personalities. Thompson unravels the complicated underpinnings of the Steph Curry hate with a nuanced analysis of how class and complexion come into play when a child with an NBA pedigree becomes the face of a sport traditionally honed on inner-city black top and dominated by the less privileged. With unprecedented access, Thompson draws from exclusive interviews with Steph Curry, his family, his teammates, Coach Steve Kerr, and the Warriors owners to bring readers inside the locker room and courtside with this remarkable athlete and man.

The Complete Book of Personal Training

Apolonia "Lina" Flores is a sock enthusiast, a volleyball player, a science lover, and

a girl who's just looking for answers. Even though her house is crammed full of books (her dad's a bibliophile), she's having trouble figuring out some very big questions, like why her dad seems to care about books more than her, why her best friend's divorced mom is obsessed with making cascarones (hollowed eggshells filled with colorful confetti), and, most of all, why her mom died last year. Like colors in cascarones, Lina's life is a rainbow of people, interests, and unexpected changes. In her first novel for young readers, Diana López creates a clever and honest story about a young Latina girl navigating growing pains in her South Texan city.

Potterwookiee

Twelve-year-old underachiever Rob has better things to do than read. His parents give him lots of books but most of them just end up in the messy pile of junk he keeps locked in his closet that once doubled as a makeshift science laboratory. One day, Rob hears weird sounds coming from behind his closet door and discovers a funny little creature that seems to be a cross between two characters from books he's tried to ignore. He names him Wonkenstein. Keeping track of "Wonk" is hard work. But with help from friends and a little off-the-wall magic, Rob and Wonkenstein's crazy adventures set the stage for great laughs . . . and Rob might even read some good books along the way.

The Chocolate War

Nancy Tatom Ammerman examines the stories Americans tell of their everyday lives, from dinner table to office and shopping mall to doctor's office, about the things that matter most to them and the routines they take for granted, and the times and places where the everyday and ordinary meet the spiritual. In addition to interviews and observation, Ammerman bases her findings on a photo elicitation exercise and oral diaries, offering a window into the presence and absence of religion and spirituality in ordinary lives and in ordinary physical and social spaces. The stories come from a diverse array of ninety-five Americans — both conservative and liberal Protestants, African American Protestants, Catholics, Jews, Mormons, Wiccans, and people who claim no religious or spiritual proclivities — across a range that stretches from committed religious believers to the spiritually neutral. Ammerman surveys how these people talk about what spirituality is, how they seek and find experiences they deem spiritual, and whether and how religious traditions and institutions are part of their spiritual lives.

MRI Bioeffects, Safety, and Patient Management is a comprehensive, authoritative textbook on the health and safety concerns of MRI technology that contains contributions from more than forty internationally respected experts in the field. This textbook includes both theoretical and practical information and serves as the definitive resource for radiologists and other physicians, MRI technologists, physicists, scientists, MRI facility managers, and others. The text begins with a discussion of basic MRI physics and then proceeds to a description of the bioeffects of static, gradient, and radiofrequency electromagnetic fields as well as the risks associated with acoustic noise. It then discusses the use of MRI during pregnancy, the design of an MRI facility to support safety, the procedures to screen patients and other individuals, and the management of patients with claustrophobia, anxiety, or emotional distress. Other chapters cover the safety of MRI contrast agents, the use of ferromagnetic detection systems, techniques for physiological monitoring, the unique safety needs of interventional MRI centers, and the administration of sedation and anesthesia during MRI. Detailed descriptions covering the proper management of patients with metallic implants and complex electronically activated devices, such as cardiac pacemakers and neuromodulation systems, are included. MRI safety policies and procedures are presented for hospitals/medical centers, outpatient facilities, children's hospitals, and research facilities. Finally, MRI standards and guidelines are provided for the United States, Europe, Canada, and Australia.

The Best American Sports Writing

The definitive history of writing and producing the "Big Book" of Alcoholics Anonymous, told through extensive access to the group's archives. Alcoholics Anonymous is arguably the most significant self-help book published in the

twentieth century. Released in 1939, the “Big Book,” as it’s commonly known, has sold an estimated 37 million copies, been translated into seventy languages, and spawned numerous recovery communities around the world while remaining a vibrant plan for recovery from addiction in all its forms for millions of people. While there are many books about A.A. history, most rely on anecdotal stories told well after the fact by Bill Wilson and other early members—accounts that have proved to be woefully inaccurate at times. Writing the Big Book brings exhaustive research, academic discipline, and informed insight to the subject not seen since Ernest Kurtz’s *Not-God*, published forty years ago. Focusing primarily on the eighteen months from October 1937, when a book was first proposed, and April 1939 when *Alcoholics Anonymous* was published, Schaberg’s history is based on eleven years of research into the wealth of 1930s documents currently preserved in several A.A. archives. Woven together into an exciting narrative, these real-time documents tell an almost week-by-week story of how the book was created, providing more than a few unexpected turns and surprising departures from the hallowed stories that have been so widely circulated about early A.A. history. Fast-paced, engaging, and contrary, *Writing the Big Book* presents a vivid picture of how early A.A. operated and grew and reveals many previously unreported details about the colorful cast of characters who were responsible for making that group so successful.
