## **Biliteracy from the Start**

This elegantly written book introduces a new perspective on Indic religious history by rethinking the

role of mantra in Vedic ritual. In *Bringing the Gods to Mind*, Laurie Patton takes a new look at mantra as "performed poetry" and in five case studies draws a portrait of early Indian sacrifice that moves beyond the well-worn categories of "magic" and "magico-religious" thought in Vedic sacrifice. Treating Vedic mantra as a sophisticated form of artistic composition, she develops the idea of metonymy, or associational thought, as a major motivator for the use of mantra in sacrificial performance. Filling a long-standing gap in our understanding, her book provides a history of the Indian interpretive imagination and a study of the mental creativity and hermeneutic sophistication of Vedic religion.

### **Passing the Principal as Instructional Leader TEXES Exam**

Looking closely at what happens when translanguaging is actively taken up to teach emergent bilingual students across different contexts,

this book focuses on how it is already happening in classrooms as well as how it can be implemented as a pedagogical orientation. It extends theoretical understandings of the concept and highlights its promises and challenges. Using a Transformative Action Research design, six empirically grounded ethnographic case studies describe how translanguaging is used in lesson designs and in the spontaneous moves made by teachers and students during specific teaching moments. The cases shed light on two questions: How, when, and why is translanguaging taken up or resisted by students and teachers? What does its use mean for them? Although grounded in a U.S. context, and specifically in classrooms in New York State, *Translanguaging with Multilingual Students* links findings and theories to different global contexts to offer important lessons for educators worldwide.

### **A Choice of Emblems**

Note: This version of The Critical Reader reflects the material tested on the current version of the SAT. If you are preparing for the new (P)SAT, you can purchase the new edition at <http://www.amazon.com/Critical-Reader-2nd-Erica-Meltzer/dp/1515182061>. Intended to demystify what is often considered the most challenging section of the SAT in a straightforward, logical manner, The Critical Reader includes: a list of 300 top words, a roots list, and a "second meanings" list, along with 75 practice sentence completions; a complete chapter devoted to each type of question followed by extensive exercises designed to reinforce the skills and concepts presented; and strategies for understanding difficult passages, locating important information, and identifying correct and incorrect answers more quickly and confidently. To allow students to apply the strategies and techniques outlined in this book to College Board material while focusing on the specific areas in which they need to improve, this book also includes a list of all the Critical Reading questions in the Official College Board Guide, 2nd Edition (2009), grouped both by category and by test. It is also recommended that students use this book in conjunction with They Say/I Say: The Moves that

Matter in Academic Writing (<http://www.amazon.com/They-Say-Academic-Writing-Edition/dp/0393935841>). More about The Critical Reader: The result of nearly a decade's worth of tutoring experience, The Critical Reader grew out of three major observations: 1) The SAT is a test about arguments. 2) The SAT represents most high school students' first encounter with college-level reading. 3) Every passage has two authors: the author of the passage and the author of the test. The Critical Reader is the only book that approaches the SAT from a college perspective while simultaneously breaking down and reinforcing the reading skills that the highest scorers take for granted. Many students preparing for the SAT find Critical Reading both frustrating and baffling because it seems unrelated to the work they do in high school English class. In reality, though, the SAT tests skills that are important for college. Critical Reading passages are based on the type of academic "conversation" on which college reading is based -- reading that requires students to juggle multiple viewpoints within the space of a few paragraphs, all while navigating challenging vocabulary and sentence structure as well as unfamiliar and sophisticated concepts. Building on the templates in Gerald Graff and Cathy Birkenstein's *They Say/I Say: The Moves that Matter in Academic Writing*, The Critical Reader teaches students to use a variety of textual clues to identify key information and distinguish between ideas that the author agrees with and ones that the author disagrees with. Unlike other guides, which rely primarily either on works whose copyright has expired (outdated, hard in the wrong way) or on passages written specifically for that prep book (too

straightforward), The Critical Reader aims to prepare students for exactly what they will find on the actual test. All of the passages are excerpted either from books/articles by authors whose work has appeared on College Board exams, or from recent works whose content/style are reflective of the material on the exam. Finally, The Critical Reader teaches students to "read the SAT" -- that is, to use the patterns inherent in the test to identify answers likely to be correct and incorrect with maximum efficiency, and to reduce the test to its simplest terms.

language than most other books – it addresses it as something students must use constantly, in a variety of school venues and in different ways depending on the context. The book shows language as vital to content access and thereby academic achievement, but, more importantly, it also provides step-by-step instructions explaining how to help students acquire the language they need. Although the main emphasis is on English language learners (ELLs), the term “diverse learners” used throughout also encompasses the great variety in any classroom of student backgrounds, abilities, needs, and interests.

The text covers the foundations of bilingual and ESL education (who the students are, what the policies are and have been, the role and development of language and culture) and provides a strong focus on what the teacher needs to know in a bilingual classroom (such as instruction strategies, teaching in content areas, assessment, and working with students with special needs). ### **Codex Seraphinianus Thirty-three**

"I tell you, God could care less about the poor. Tell me, why must we live here like this? What have we done to deserve this? You're so good and yet you suffer so much," a young boy tells his mother in Tomás Rivera's classic novel about the migrant worker experience. Outside the chicken coop that is their home, his father wails in pain from the unbearable cramps brought on by sunstroke after working in the hot fields. The young boy can't understand his parents' faith in a god that would impose such horrible suffering, poverty and injustice on innocent people. Adapted into the award-winning film and the earth did not swallow him and recipient of the first award for Chicano literature, the Premio Quinto Sol, in 1970, Rivera's masterpiece recounts the experiences of a Mexican-American community through the eyes of a young boy. Forced to leave

their home in search of work, the migrants are exploited by farmers, shopkeepers, even other Mexican Americans, and the boy must forge his identity in the face of exploitation, death and disease, constant moving and conflicts with school officials. In this powerful novel comprised of short vignettes, Rivera writes hauntingly about alienation, love and betrayal, man and nature, death and resurrection and the search for community.
