This book examines the promotion of the sensuous as part of religious experience in the Roman Catholic Church of the early modern period. During the Counter-Reformation, every aspect of religious and devotional practice was reviewed, including the role of art and architecture, and the invocation of the five senses to incite devotion became a hotly contested topic. The Protestants condemned the material cult of veneration of relics and images, rejecting the importance of emotion and the senses and instead promoting the power of reason in receiving the Word of God. After much debate, the Church concluded that the senses are necessary to appreciate the sublime, and that they derive from the Holy Spirit. As part of its attempt to win back the faithful, the Church embraced the sensuous and promoted the use of images, relics, liturgy, processions, music, and theater as important parts of religious experience.

The Listener

Often the finest artists do not make the best teachers. Many frustrated college students of art know this all too well as they suffer through unstructured classes with inexperienced teachers or graduate student instructors. In these situations, it is easy to blame the teachers. But the problem is largely institutional: most students graduating with MFAs from art schools receive little if any instruction in teaching art. If you find yourself in this predicament as teacher or student, this book is for you. The first book to provide a comprehensive guide for teaching college-level art, *The Art of Teaching Art* is the culmination of respected artist and instructor Deborah Rockman's two decades of teaching experience. Believing that drawing is the backbone of all of the visual arts, she begins with a complete explanation of drawing concepts that apply to any subject matter, e.g., composition, sighting processes, scaling techniques, and methods for linear and tonal development. She then illustrates these concepts with step-by-step methods that easily translate to classroom exercises. Next, she applies the drawing principles to every artist's most important and challenging subject, the human figure. After an extended section on understanding and teaching perspective that explores illusionistic form and space, the focus of the book shifts to the studio classroom itself and the essential elements that go into making an effective learning environment and curriculum. From preparing materials lists and syllabi, to setting up still-lives, handling difficult classroom situations, critiquing and grading student artworks, and shooting slides of student artworks, she leaves no stone unturned.

Broken Wings

The young Michelangelo Merisi da Caravaggio (1571–1610) created a major stir in late-sixteenth-century Rome with the groundbreaking naturalism and highly charged emotionalism of his paintings. One might think, given the vast number of

books that have been written about him, that everything that could possibly be said about the artist has been said. However, the author of this book argues, it is important to take a fresh look at the often repeated and widely accepted narratives about the artist's life and work. Sybille Ebert-Schifferer subjects the available sources to a critical reevaluation, uncovering evidence that the efforts of Caravaggio's contemporaries to disparage his character and his artwork often sprang from their own cultural biases or a desire to promote the artistic achievements of his rivals. Contrary to repeated claims in the literature, the painter lacked neither education nor piety, but was an extremely accomplished technician who developed a successful marketing strategy. He enjoyed great respect and earned high fees from his prestigious clients while he also inspired a large circle of imitators. Even his brushes with the law conformed to the behavioral norms of the aristocratic Romans he sought to emulate. The beautiful reproductions of Caravaggio's paintings in this volume make clear why he captivated the imagination of his contemporaries, a reaction that echoes today in the ongoing popularity of his work and the fierce debate that it continues to provoke among art historians.

Caravaggio: A Life Sacred and Profane

chiaroscuro (n. kee-ah-roe-SKEW-roe) in art, the treatment of light and shadow to render the illusion of depth. When aspiring Ivy League student Eadlyn Finch has her wallet stolen in a coffee shop, she thinks her luck can't get much worse. But when she meets the thief, mysteriously cold and analytically brilliant James Ferrias, she realizes it can. From extravagant dinners to pageants, fate throws them together at every turn. At first masquerading as a pretty bad boy with nothing inside, James is hiding much more than what he's willing to admit. If his father is the CEO of a multibillion-dollar corporation, then why is James living in the slums of New Santiago? Who is Belle, and why is her identity something he'll do anything to hide? Quitting his internship, James begins to work at Eadlyn's coffee shop. They are two among a group of dedicated employees who are taken to Switzerland to supervise a new chain location there. In a new country, new people--and old skeletons from James's closet--come into play to form an intricate web of corruption and lies, and they begin to realize that there is much more than fate at play.

The City of Light. For many, these four words instantly conjure late nineteenth-century Paris and the garish colors of Toulouse-Lautrec's iconic posters. More recently, the Eiffel Tower's nightly show of sparkling electric lights has come to exemplify our fantasies of Parisian nightlife. Though we reflect longingly on such scenes, in *Illuminated Paris*, Hollis Clayson shows that there's more to these clichés than meets the eye. In this richly illustrated book, she traces the dramatic evolution of lighting in Paris and how artists responded to the shifting visual and cultural scenes that resulted from these technologies. While older gas lighting produced a haze of orange, new electric lighting was hardly an improvement: the glare of experimental arc lights—themselves dangerous—left figures looking pale and ghoulish. As Clayson shows, artists' representations of these new colors and shapes reveal turn-of-the-century concerns about modernization as electric lighting came to represent the harsh glare of rapidly accelerating social change. At the same time, in part thanks to American artists visiting the city, these works of art also produced our enduring romantic view of Parisian glamour and its Belle Époque.

In this erotic gay fantasy novel, Jakil LeMae arrives at Alyrrowood University, the prestigious all male school for mages, vampires, faeries, and werewolf. He makes friends, enemies, and attracts the attention of a sadistic lust faerie--and it's only his first day there! His roommate, Maika, is the faerie poster-boy for the clinically depressed, and seems determined to be as unfriendly as possible, until a mutual need forces them together. Jak, a healing mage, is drawn to pain and suffering with a need to fix things, but is this broken faerie beyond fixing? Akitra is a lust faerie and Maika's only friend, and he takes an instant dislike to Jak over a perceived

insult. Unfortunately for Jak, insulting a faerie can have deadly consequences. Jak's closest friends are Izeri, a weather fey who can't control the weather, and Zaiden, a goofy fire mage. The two couldn't be more different--Izeri is quiet, timid, and very hands-off, and Zaiden is loud, impulsive, and has a horny streak a mile wide--but Jak would trust either of them with his life. Also in the mix is Charias, an anti-social wereshark that Jak manages to offend, who happens to be Izeri's roommate. Caught up in a world of sex, drama, deception, and betrayal, who can Jak trust, who can he save, and who will he love? ** This book contains pervasive, explicit sexual content, M/M and M/M/M relationships, and self-harm. **
