Revelation

A riveting, urgent account of the explorers and scientists racing to understand the rapidly melting ice sheet in Greenland, a dramatic harbinger of climate change "Jon Gertner takes readers to spots few journalists or even explorers have visited. The result is a gripping and important book."--Elizabeth Kolbert, Pulitzer Prize-winning author of *The Sixth Extinction* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Washington Post* * *The Christian Science Monitor* * *Library Journal*

Greenland: a remote, mysterious island five times the size of California but with a population of just 56,000. The ice sheet that covers it is 700 miles wide and 1,500 miles long, and is composed of nearly three quadrillion tons of ice. For the last 150 years, explorers and scientists have sought to understand Greenland--at first hoping that it would serve as a gateway to the North Pole, and later coming to realize that it contained essential information about our climate. Locked within this vast and frozen white desert are some of the most profound secrets about our planet and its future. Greenland's ice doesn't just tell us where we've been. More urgently, it tells us where we're headed. In *The Ice at the End of the World*, Jon Gertner explains how Greenland has evolved from one of earth's last frontiers to its largest scientific laboratory. The history of Greenland's ice begins with the explorers who arrived here at the turn of the twentieth century--first on foot, then on skis, then on crude, motorized sleds--and embarked on grueling expeditions that took as long as a year and often ended in frostbitten tragedy. Their original goal was simple: to conquer Greenland's seemingly infinite interior. Yet their efforts eventually gave way to scientists who built lonely encampments out on the ice and began drilling--one mile, two miles down. Their aim was to pull up ice cores that could reveal the deepest mysteries of earth's past, going back hundreds of thousands of years. Today, scientists from all over the world are deploying every technological tool available to uncover the secrets of this frozen island before it's too late. As Greenland's ice melts and runs off into the sea, it not only threatens to affect hundreds of millions of people who live in coastal areas. It will also have drastic effects on ocean currents, weather

systems, economies, and migration patterns. Gertner chronicles the unfathomable hardships, amazing discoveries, and scientific achievements of the Arctic's explorers and researchers with a transporting, deeply intelligent style--and a keen sense of what this work means for the rest of us. The melting ice sheet in Greenland is, in a way, an analog for time. It contains the past. It reflects the present. It can also tell us how much time we might have left.

Fahrenheit 451

NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. A New York Times Notable Book One of the Best Books of the Year The Boston Globe, The Christian Science Monitor, The Denver Post, The Kansas City Star, Los Angeles Times, New York, People, Rocky Mountain News, Time, The Village Voice, The Washington Post

Until the End of Time

London - late 1880s. Alex - successful MBA, skeptical and materialistic executive, sees himself as a woman in a previous life. And, she's about to have a miscarriage. This out-of-body experience, or regression, totally changes Alex's present life. He recovers from a serious autoimmune disease and forsakes the rat race of the business world to bring relief to others. And, through his treatment of clients he has reawakened and guided over 600 people through regressions to their previous lives. This book recounts, with incredible detail, the adventures of his clients' previous lives. Readers learn about hypnosis techniques and other phenomena like déjà vu. Fear not, the book is not overly technical. The author debunks myths about hypnosis, explaining why his controlled techniques produce empirical results, notwithstanding the lack of acceptance by traditional medicine. Have you ever met someone or entered a place for the first time, but, feel like you once knew them or where there before? Mr. Racó's clients expose how childhood memories and previous lives contribute to our present consciousness - our very souls. It goes beyond our brains, before our present beings, and after our deaths. The book describes Mr. Racó's initial heavy skepticism of regression therapy. But it describes the real experiences of many clients. Their regression experiences demonstrate how present problems can be solved or reduced by reworking traumatic

memories - in this and in previous lifetimes. A book in which topics such as parenting, soulmates, emotional dependency and the love for animals become alive through the lives of soldiers, monks, thieves, singers, slaves, dwarfs, ancient Romans, medieval peasants and warriors. It is a statistical and empirical investigation from a professional who is able to maintain, in spite of everything, a detached and neutral perspective. A great instrument for the psychological well-being and personal growth of all of us. A book that will change your life.

The Boy who Met Jesus

#1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as "required reading," a bold and personal literary exploration of America's racial history by "the most important essayist in a generation and a writer who changed the national political conversation about race" (Rolling Stone) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Cloud Atlas

Siddhartha is a 1922 novel by Hermann Hesse that deals with the spiritual journey of self-discovery of a man named Siddhartha during the time of the Gautama Buddha. The book, Hesse's ninth novel, was written in German, in a simple,

lyrical style. It was published in the U.S. in 1951 and became influential during the 1960s. Hesse dedicated the first part of it to Romain Rolland and the second to Wilhelm Gundert, his cousin. The word Siddhartha is made up of two words in the Sanskrit language, siddha (achieved) + artha (what was searched for), which together means "he who has found meaning (of existence)" or "he who has attained his goals". In fact, the Buddha's own name, before his renunciation, was Siddhartha Gautama, Prince of Kapilvastu. In this book, the Buddha is referred to as "Gotama".

Desperately Undone

ECPA BESTSELLER • A compelling emotional and spiritual case against hurry and in favor of a slower, simpler way of life “As someone all too familiar with ‘hurry sickness,’ I desperately needed this book.”—Scott Harrison, New York Times best-selling author of Thirst “Who am I becoming?” That was the question nagging pastor and author John Mark Comer. Outwardly, he appeared successful. But inwardly, things weren’t pretty. So he turned to a trusted mentor for guidance and heard these words: “Ruthlessly eliminate hurry from your life. Hurry is the great enemy of the spiritual life.” It wasn’t the response he expected, but it was—and continues to be—the answer he needs. Too often we treat the symptoms of toxicity in our modern world instead of trying to pinpoint the cause. A growing number of voices are pointing at hurry, or busyness, as a root of much evil. Within the pages of this book, you’ll find a fascinating roadmap to staying emotionally healthy and spiritually alive in the chaos of the modern world.

The Acts of the Apostles

Explores the New Testament book of Revelation in a historical first-century context, reinterpreting the book as a scathing attack on the decadence of Rome that was subsequently adopted by early Christians as a weapon against heresy.

News of the World

After a week of hearing ghostly noises, a man is visited in his home by the spirit of his mother, dead for three decades. She reproaches him for his dissolute life and begs him to have Masses said in her name. Then she lays her hand on his sleeve, leaving an indelible burn mark, and departs A Lutheran minister, no believer in Purgatory, is the puzzled recipient of repeated visitations from "demons" who come to him seeking prayer, consolation, and refuge in his little German church. But pity for the poor spirits overcomes the man's skepticism, and he marvels at what kind of departed souls could belong to Christ and yet suffer still Hungry Souls recounts these stories and many others trustworthy, Church-verified accounts of earthly visitations from the dead in Purgatory. Accompanying these accounts are images from the "Museum of Purgatory" in Rome, which contains relics of encounters with the Holy Souls, including numerous evidences of hand prints burned into

clothing and books; burn marks that cannot be explained by natural means or duplicated by artificial ones. Riveting!

The Crown of History

London - late 1880s. Alex - successful MBA, skeptical and materialistic executive, sees himself as a woman in a previous life. And, she's about to have a miscarriage. This out-of-body experience, or regression, totally changes Alex's present life. Their regression experiences demonstrate how present problems can be solved or reduced by reworking traumatic memories - in this and in previous lifetimes. A book in which topics such as parenting, soulmates, emotional dependency and the love for animals become alive through the lives of soldiers, monks, thieves, singers, slaves, dwarfs, ancient Romans, medieval peasants and warriors. It is a statistical and empirical investigation from a professional who is able to maintain, in spite of everything, a detached and neutral perspective. A great instrument for the psychological well-being and personal growth of all of us. A book that will change your life.

It's Never the End. Past Lives Present Destiny

A trusted companion and go-to resource for everyone supporting someone at the end of life--from the moment we first learn that someone is dying through the time of death and beyond. Present through the End offers the guidance and essential wisdom we need when we are struggling to support someone who is nearing death. This book helps us meet the many challenges ahead and navigate through difficult times with clarity and kindness--both for the person who is dying and also for ourselves. Inspired by decades of experience caring for the dying and years teaching contemplative care around the world, Kirsten DeLeo shares down-to-earth advice and offers short, simple "on the spot" tools to help us handle our emotions, deal with difficult relationships, talk about spiritual matters, practice self-care, listen fully, and more. This book offers insight and encouragement when we are unsure what to do or say and shows us how to be present even though we may feel utterly helpless, love when loss is just around the corner, and be fully alive to each moment as time runs out.

A People's History of the United States

This small book is on the impending and unprecedented worldwide glorious Golden Age of Peace that is about to break upon the whole world (and on how you can help make it arrive quickly). Authored by Daniel O'Connor, professor of Philosophy and Religion and a Doctoral student.

Between the World and Me

Lives are about to be flipped upside down through a demonstration of the power of pure love. Hanna, Bull, and Gwen live in a world where loss is a reality and there are no holidays from pain. They are all connected, and find solace in each other as they come together to unearth a long-held secret that changes them forever.

Emancipating Elias

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

Waters of the World

A panoramic narrative of the years leading up to the Second World War—a tale of democratic crisis, racial conflict, and a belated recognition of evil, with profound resonance for our own time. Berlin, November 1937. Adolf Hitler meets with his military commanders to impress upon them the urgent necessity for a war of aggression in eastern Europe. Some generals are unnerved by the Führer's grandiose plan, but these dissenters are silenced one by one, setting in motion events that will culminate in the most calamitous war in history. Benjamin Carter Hett takes us behind the scenes in Berlin, London, Moscow, and Washington, revealing the unsettled politics within each country in the wake of the German dictator's growing provocations. He reveals the fitful path by which anti-Nazi forces inside and outside Germany came to understand Hitler's true menace to European civilization and learned to oppose him, painting a sweeping portrait of governments under siege, as larger-than-life figures struggled to turn events to their advantage. As in *The Death of Democracy*, his acclaimed history of the fall of the Weimar Republic, Hett draws on original sources and newly released documents to show how these long-ago conflicts have unexpected resonances in our own time. To read *The Nazi Menace* is to see past and present in a new and unnerving light.

The Nazi Menace

Acts is the sequel to Luke's gospel and tells the story of Jesus's followers during the 30 years after his death. It describes how the 12 apostles, formerly Jesus's disciples, spread the message of Christianity throughout the Mediterranean against a background of persecution. With an introduction by P.D. James

Siddhartha

The End of the Present World and the Mysteries of the Future Life

Worldmaking After Empire

Every generation of college students, no matter how different from its predecessor, has been an enigma to faculty and administration, to parents, and to society in general. Watching today's students "holding themselves in because they had to get A's not only on tests but on deans' reports and recommendations," Helen Lefkowitz Horowitz, author of the highly praised *Alma Mater*, began to ask, "What has gone wrong—how did we get where we are today?" *Campus Life* is the result of her search—through college studies, alumni autobiographies, and among students themselves—for an answer. She begins in the post-revolutionary years when the peculiarly American form of college was born, forced in the student-faculty warfare: in 1800, pleasure-seeking Princeton students, angered by disciplinary action, "show pistols . . . and rolled barrels filled with stones along the hallways." She looks deeply into the campus through the next two centuries, to show us student society as revealed and reflected in the students' own codes of behavior, in the clubs (social and intellectual), in athletics, in student publications, and in student government. And we begin to notice for the first time, from earliest days till now, younger men, and later young women as well, have entered not a monolithic "student body" but a complex world containing three distinct sub-cultures. We see how from the beginning some undergraduates have resisted the ritualized frivolity and rowdiness of the group she calls "College Men." For the second group, the "Outsiders," college was not so much a matter of secret societies, passionate team spirit and college patriotism as a serious preparation for a profession; and over the decades their ranks were joined by ambitious youths from all over rural America, by the first college women, by immigrants, Jews, "townies," blacks, veterans, and older women beginning or continuing their education. We watch a third subculture of "Rebels"—both men and women - emerging in the early twentieth century, transforming individual dissent into collective rebellion, contending for control of collegiate politics and press, and eventually—in the 1960s—reordering the whole college/university world. Yet, Horowitz demonstrates, in spite of the tumultuous 1960s, in

spite of the vast changes since the nineteenth century, the ways in which undergraduates work and play have continued to be shaped by whichever of the three competing subcultures—college men and women, outsiders, and rebels—is in control. We see today's campus as dominated by the new breed of outsiders (they began to surface in the 1970s) driven to pursue their future careers with a "grim professionalism." And as faint and sporadic signs emerge of (perhaps) a new activism, and a new attraction to learning for its own sake, we find that Helen Lefkowitz Horowitz has given us, in this study, a basis for anticipated the possible nature of the next campus generation.

The Sound of Stars

#1 New York Times Bestseller A Reese Witherspoon x Hello Sunshine Book Club Pick "I can't even express how much I love this book! I didn't want this story to end!"--Reese Witherspoon "Painfully beautiful."--The New York Times Book Review "Perfect for fans of Barbara Kingsolver."--Bustle For years, rumors of the "Marsh Girl" have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life--until the unthinkable happens. Perfect for fans of Barbara Kingsolver and Karen Russell, *Where the Crawdads Sing* is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.

It's Never The End

Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

The Ruthless Elimination of Hurry

Can a girl who risks her life for books and an alien who loves pop music work together to save humanity? A beautiful and thrilling debut novel for fans of Marie Lu and Veronica Roth. Two years ago, a misunderstanding between the leaders of Earth and the invading Ilori resulted in the deaths of one-third of the world's population. Today, seventeen-year-old Ellie

Baker survives in an Ilori-controlled center in New York City. With humans deemed dangerously volatile because of their initial reaction to the invasion, emotional expression can be grounds for execution. Music, art and books are illegal, but Ellie still keeps a secret library. When young Ilori commander M0Rr1S finds Ellie's library, he's duty-bound to deliver her for execution. The trouble is, he finds himself drawn to human music and in desperate need of more. Humanity's fate rests in the hands of an alien Ellie should fear, but M0Rr1S has a potential solution—thousands of miles away. The two embark on a wild and dangerous journey with a bag of books and their favorite albums, all the while creating a story and a song of their own that just might save them both.

The Great Controversy

LOS ANGELES TIMES BESTSELLER The problem is not overpolicing, it is policing itself. Why we need to defund the police and how we get there. Recent weeks have seen an explosion of protest against police brutality and repression. Among activists, journalists and politicians, the conversation about how to respond and improve policing has focused on accountability, diversity, training, and community relations. Unfortunately, these reforms will not produce results, either alone or in combination. The core of the problem must be addressed: the nature of modern policing itself. This book attempts to spark public discussion by revealing the tainted origins of modern policing as a tool of social control. It shows how the expansion of police authority is inconsistent with community empowerment, social justice— even public safety. Drawing on groundbreaking research from across the world, and covering virtually every area in the increasingly broad range of police work, Alex Vitale demonstrates how law enforcement has come to exacerbate the very problems it is supposed to solve. In contrast, there are places where the robust implementation of policing alternatives—such as legalization, restorative justice, and harm reduction—has led to a decrease in crime, spending, and injustice. The best solution to bad policing may be an end to policing.

American Gods

Decolonization revolutionized the international order during the twentieth century. Yet standard histories that present the end of colonialism as an inevitable transition from a world of empires to one of nations—a world in which self-determination was synonymous with nation-building—obscure just how radical this change was. Drawing on the political thought of anticolonial intellectuals and statesmen such as Nnamdi Azikiwe, W.E.B Du Bois, George Padmore, Kwame Nkrumah, Eric Williams, Michael Manley, and Julius Nyerere, this important new account of decolonization reveals the full extent of their unprecedented ambition to remake not only nations but the world. Adom Getachew shows that African, African American, and Caribbean anticolonial nationalists were not solely or even primarily nation-builders. Responding to the experience of racialized sovereign inequality, dramatized by interwar Ethiopia and Liberia, Black Atlantic thinkers and politicians

challenged international racial hierarchy and articulated alternative visions of worldmaking. Seeking to create an egalitarian postimperial world, they attempted to transcend legal, political, and economic hierarchies by securing a right to self-determination within the newly founded United Nations, constituting regional federations in Africa and the Caribbean, and creating the New International Economic Order. Using archival sources from Barbados, Trinidad, Ghana, Switzerland, and the United Kingdom, *Worldmaking after Empire* recasts the history of decolonization, reconsiders the failure of anticolonial nationalism, and offers a new perspective on debates about today's international order.

End of History and the Last Man

From the world-renowned physicist and best-selling author of *The Elegant Universe* comes this captivating exploration of deep time and humanity's search for purpose. Until the *End of Time* is Brian Greene's breathtaking new exploration of the cosmos and our quest to understand it. Greene takes us on a journey across time, from our most refined understanding of the universe's beginning, to the closest science can take us to the very end. He explores how life and mind emerged from the initial chaos, and how our minds, in coming to understand their own impermanence, seek in different ways to give meaning to experience: in narrative, myth, religion, creative expression, science, the quest for truth, and our longing for the eternal. Through a series of nested stories that explain distinct but interwoven layers of reality--from quantum mechanics to consciousness to black holes--Greene provides us with a clearer sense of how we came to be, a finer picture of where we are now, and a firmer understanding of where we are headed. With this grand tour of the universe, beginning to end, Brian Greene allows us all to grasp and appreciate our fleeting but utterly exquisite moment in the cosmos.

The Road

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world. From the Trade Paperback edition.

The Book Thief

Shadow is a man with a past. But now he wants nothing more than to live a quiet life with his wife and stay out of trouble.

Until he learns that she's been killed in a terrible accident. Flying home for the funeral, as a violent storm rocks the plane, a strange man in the seat next to him introduces himself. The man calls himself Mr. Wednesday, and he knows more about Shadow than is possible. He warns Shadow that a far bigger storm is coming. And from that moment on, nothing will ever be the same

Revelations

'Life affirming, triumphant and tragic . . . masterfully told. . . but also a wonderful page-turner' Guardian 'Brilliant and hugely ambitious' New York Times 'Extraordinary' Telegraph ___ HERE IS A SMALL FACT - YOU ARE GOING TO DIE 1939. Nazi Germany. The country is holding its breath. Death has never been busier. Liesel, a nine-year-old girl, is living with a foster family on Himmel Street. Her parents have been taken away to a concentration camp. Liesel steals books. This is her story and the story of the inhabitants of her street when the bombs begin to fall. SOME IMPORTANT INFORMATION - THIS NOVEL IS NARRATED BY DEATH ___ Over 16 million copies sold worldwide. Now a major motion picture.

Orientalism

A fireman in charge of burning books meets a revolutionary school teacher who dares to read. Depicts a future world in which all printed reading material is burned.

The Ice at the End of the World

Beginning with the destruction of Jerusalem and continuing through the persecutions of Christians in the Roman Empire, the apostasy of the Dark Ages, the shining light of the Reformation, and the worldwide religious awakening of the nineteenth century, this volume traces the conflict into the future, to the Second Coming of Jesus and the glories of the earth made new. In this concluding volume, the author powerfully points out the principles involved in the impending conflict and how each person can stand firmly for God and His truth.

Evil Geniuses

“The single most resonant and carefully imagined book of Dick’s career.” —New York Times It’s America in 1962. Slavery is legal once again. The few Jews who still survive hide under assumed names. In San Francisco, the I Ching is as common as the Yellow Pages. All because some twenty years earlier the United States lost a war—and is now occupied by Nazi Germany and Japan. This harrowing, Hugo Award-winning novel is the work that established Philip K. Dick as an innovator in

science fiction while breaking the barrier between science fiction and the serious novel of ideas. In it Dick offers a haunting vision of history as a nightmare from which it may just be possible to wake. Winner of the Hugo Award

Just Mercy

NEW YORK TIMES BESTSELLER • When did America give up on fairness? The author of *Fantasyland* tells the epic history of how America decided that big business gets whatever it wants, only the rich get richer, and nothing should ever change—and charts a way back to the future. “The one book everyone must read as we figure out how to rebuild our country.”—Walter Isaacson, author of *Steve Jobs* and *Leonardo da Vinci* During the twentieth century, America managed to make its economic and social systems both more and more fair and more and more prosperous. A huge, secure, and contented middle class emerged. All boats rose together. But then the New Deal gave way to the Raw Deal. Beginning in the early 1970s, by means of a long war conceived of and executed by a confederacy of big business CEOs, the superrich, and right-wing zealots, the rules and norms that made the American middle class possible were undermined and dismantled. The clock was turned back on a century of economic progress, making greed good, workers powerless, and the market all-powerful while weaponizing nostalgia, lifting up an oligarchy that served only its own interests, and leaving the huge majority of Americans with dwindling economic prospects and hope. Why and how did America take such a wrong turn? In this deeply researched and brilliantly woven cultural, economic, and political chronicle, Kurt Andersen offers a fresh, provocative, and eye-opening history of America’s undoing, naming names, showing receipts, and unsparingly assigning blame—to the radical right in economics and the law, the high priests of high finance, a complacent and complicit Establishment, and liberal “useful idiots,” among whom he includes himself. Only a writer with Andersen’s crackling energy, deep insight, and ability to connect disparate dots and see complex systems with clarity could make such a book both intellectually formidable and vastly entertaining. And only a writer of Andersen’s vision could reckon with our current high-stakes inflection point, and show the way out of this man-made disaster.

Campus Life

#1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor,

the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book “Every bit as moving as To Kill a Mockingbird, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields.”—David Cole, The New York Review of Books “Searing, moving . . . Bryan Stevenson may, indeed, be America's Mandela.”—Nicholas Kristof, The New York Times “You don't have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful.”—Ted Conover, The New York Times Book Review “Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he's also a gifted writer and storyteller.”—The Washington Post “As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty.”—The Financial Times “Brilliant.”—The Philadelphia Inquirer

The End of the Present World

Soon to be a Major Motion Picture National Book Award Finalist—Fiction In the aftermath of the Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this exquisitely rendered, morally complex, multilayered novel of historical fiction from the author of Enemy Women that explores the boundaries of family, responsibility, honor, and trust. In the wake of the Civil War, Captain Jefferson Kyle Kidd travels through northern Texas, giving live readings from newspapers to paying audiences hungry for news of the world. An elderly widower who has lived through three wars and fought in two of them, the captain enjoys his rootless, solitary existence. In Wichita Falls, he is offered a \$50 gold piece to deliver a young orphan to her relatives in San Antonio. Four years earlier, a band of Kiowa raiders killed Johanna's parents and sister; sparing the little girl, they raised her as one of their own. Recently rescued by the U.S. army, the ten-year-old has once again been torn away from the only home she knows. Their 400-mile journey south through unsettled territory and unforgiving terrain proves difficult and at times dangerous. Johanna has forgotten the English language, tries to escape at every opportunity, throws away her shoes, and refuses to act “civilized.” Yet as the miles pass, the two lonely survivors tentatively begin to trust each other, forming a bond that marks the difference between life and death in this treacherous land. Arriving in San Antonio, the reunion is neither happy nor welcome. The captain must hand Johanna over to an aunt and uncle she does not remember—strangers who regard her as an unwanted burden. A

respectable man, Captain Kidd is faced with a terrible choice: abandon the girl to her fate or become—in the eyes of the law—a kidnapper himself.

The Book of Common Prayer, and Administration of the Sacraments, Together with the Psalter

Bree Richards has lived a secluded life for the last ten years. When her past finally catches up with her, Bree finds herself travelling across the Country with the dangerous Michael Ryan. With Boston's underworld and sexy, but questionable, FBI agent Davis snapping at their heels, Bree makes the decision to put her trust in the one person she fears most.

The End of Policing

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Present through the End

Mystery book on 'End Times' reappears. This marvelous book will show you how to read the signs of the times and prepare you to bear yourself as a Christian no matter what the future holds. "Reading this book was one of the greatest graces of my life " St. Therese of Lisieux

Alice's Adventures in Wonderland

Presents the story of an illiterate, secular Rwandan shepherd boy who in 1982 claimed he was visited by Jesus and received answers to eternal questions about life that caused him to be both persecuted and revered among leading biblical scholars before his death in the 1994 Rwandan genocide.

Where the Crawdads Sing

Hungry Souls

From the glaciers of the Alps to the towering cumulonimbus clouds of the Caribbean and the unexpectedly chaotic flows of the North Atlantic, *Waters of the World* is a tour through 150 years of the history of a significant but underappreciated idea: that the Earth has a global climate system made up of interconnected parts, constantly changing on all scales of both time and space. A prerequisite for the discovery of global warming and climate change, this idea was forged by scientists studying water in its myriad forms. This is their story. Linking the history of the planet with the lives of those who studied it, Sarah Dry follows the remarkable scientists who summited volcanic peaks to peer through an atmosphere's worth of water vapor, cored mile-thick ice sheets to uncover the Earth's ancient climate history, and flew inside storm clouds to understand how small changes in energy can produce both massive storms and the general circulation of the Earth's atmosphere. Each toiled on his or her own corner of the planetary puzzle. Gradually, their cumulative discoveries coalesced into a unified working theory of our planet's climate. We now call this field climate science, and in recent years it has provoked great passions, anxieties, and warnings. But no less than the object of its study, the science of water and climate is—and always has been—evolving. By revealing the complexity of this history, *Waters of the World* delivers a better understanding of our planet's climate at a time when we need it the most.

The Man in the High Castle

By the New York Times bestselling author of *The Bone Clocks* | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide

phenomenon. Praise for Cloud Atlas “[David] Mitchell is, clearly, a genius. He writes as though at the helm of some perpetual dream machine, can evidently do anything, and his ambition is written in magma across this novel’s every page.”—The New York Times Book Review “One of those how-the-holy-hell-did-he-do-it? modern classics that no doubt is—and should be—read by any student of contemporary literature.”—Dave Eggers “Wildly entertaining . . . a head rush, both action-packed and chillingly ruminative.”—People “The novel as series of nested dolls or Chinese boxes, a puzzle-book, and yet—not just dazzling, amusing, or clever but heartbreaking and passionate, too. I’ve never read anything quite like it, and I’m grateful to have lived, for a while, in all its many worlds.”—Michael Chabon “Cloud Atlas ought to make [Mitchell] famous on both sides of the Atlantic as a writer whose fearlessness is matched by his talent.”—The Washington Post Book World “Thrilling . . . One of the biggest joys in Cloud Atlas is watching Mitchell sashay from genre to genre without a hitch in his dance step.”—Boston Sunday Globe “Grand and elaborate . . . [Mitchell] creates a world and language at once foreign and strange, yet strikingly familiar and intimate.”—Los Angeles Times From the Hardcover edition.
