The Vampire in Lore and Legend

This book is devoted to Mary Elizabeth Braddon's complex relationship with the three main Victorian literary genres: the Gothic, the Detective and the Realist novel. Using Braddon's bestselling sensation fiction *Lady Audley's Secret* as a paradigmatic novel and as a 'haunting' textual presence across her literary career, this study provides a fertile critical reading of a wide range of Braddon's novels and short stories. Through an analysis of Braddon's negotiations with Victorian narrative, ideological and cultural issues, this monograph offers readers a refreshing view of gender, female identity and subjectivity, the treatment of insanity, questions related to technology and progress, the impact of evolutionism and Darwinism, the intersemiotic dialogue between pictorial art and novel-writing, the role of the (female) writer in the new literary market and the changing notion of capital in an increasingly fluid social context. Braddon's manipulation of Victorian literary codes and conventions proves that she was something more than a mere sensation writer and that her primary role in the nineteenth-century literary scene has to be reaffirmed. Drawing on a wide range of textual materials and literary sources, the book foregrounds Braddon's constant and sometimes ambivalent dialogue with her times, and with ours as well.

Vikram and the Vampire

The critical work examines the vampire as a spiritual figure--whether literal or metaphorical--analyzing how the use of the vampire in literature has served to convey both a human sense of alienation from the divine and a desire to overcome that alienation. While expressing isolation, the vampire also represents the transcendent agent through which individuals and societies must confront questions about innate good or evil, and belief in the divine and the afterlife. Textual experiences of the numinous in the form of the vampire propel the subject on a spiritual journey involving both psychological and religious qualities. Through this journey, the reader and the main character may begin to understand the value of their existence and the divine. A variety of works, poetry and fiction by British and American authors, is discussed, with particular concentration on Coleridge's "The Rime of the Ancient Mariner," Bram Stoker's *Dracula*, and Anne Rice's

Vampire Chronicles, as representative of the Romantic, Victorian, and late twentieth century periods of literature. A conclusion looks at the future of the literary vampire.

Lady & the Vamp

The Muse

The short story should enlighten, excite and above all, entertain the reader from an early stage. It is the skill of grasping interest from the outset and retaining such that remains the aim of any writer. THE LADY IN BLACK and Other City Tales collects fourteen short stories set in a different city at a time of particular interest in each chosen destination's history. When better to visit Venice than at the time of Casanova (BECKFORD'S VENETIAN AFFAIR) or Vienna in the dying days of the

belle epoch of Emperor Franz Josef ? In THE LADY IN BLACK , the mystery of Gustav Klimt's last missing portrait is solved in a thrilling journey through the battlefields of the second world war to the present day (and where a particularly chilling twist is revealed at the story's conclusion!). In DUPONT'S REVENGE, the French Resistance is reactivated in 1970's Nice to deal with a troublesome neighbour, and in present day Liverpool, a journalist discovers to his cost the consequences of meddling in the affairs of THE TOXTETH VAMPIRE. The futility of Britain's celebrity obsession is evaluated in all its puerile glory where, in FALLS ROAD DON JUAN, a Belfast lothario accepts a sexual wager which if won, will see him fifty thousand pounds better off. It is common knowledge that the invasion of Britain by the German war machine seemed inevitable in 1940, but few appreciate the even greater threat to the security of the nation which occurred twenty three years earlier when Winston Churchill ordered tanks into a major British city on the verge of Bolshevik revolution. THE MOST DANGEROUS MAN tells the story of Brennan, the charismatic anarchist who came dangerously close in bringing the world's greatest Empire to collapse. Britain is again under threat in THE LAST TARGET. Set in a future London on the brink of civil war a young intelligence operative hunts the world's most elusive assassin on the eve of the reopening of the House of Commons destroyed by Islamic terrorists. Join three middle aged men in a touching tale of lost youth in THE INTERESTING ACCOUNTANT as they attempt to relive old times in modern day Cuba, and in DIET, a young Calgary lawyer finds success in her endeavour to loose weight but at a terrible cost. In FRANKIE AND BENNY a young Scots entrepreneur lives the American dream at the dawn of the twentieth Century in New York and gives the Marx Brothers their first break in entertainment along the way. If the purpose of the short story is to seek a response from the reader, to make them laugh, cry, sulk, shudder, frown or wince, THE LADY IN BLACK and Other City Tales delivers.

Vampire Hunter D Volume 15: Dark Road

Carol A. Senf traces the vampire's evolution from folklore to twentieth-century popular culture and explains why this creature became such an important metaphor in Victorian England. This bloodsucker who had stalked the folklore of almost every culture became the property of serious artists and thinkers in Victorian England, including Charlotte and Emily Brontë, George Eliot, Charles Dickens, Karl Marx, and Friedrich Engels. People who did not believe in the existence of vampires nonetheless saw numerous metaphoric possibilities in a creature from the past that exerted pressure on the present and was often threatening because of its sexuality.

Training "How did you know we we're coming?" She asked. Chuckling to myself I smiled at Miss. Prissy Einstein then her boyfriend. "Arthur is set up outside. When someone approaches the tent he buzzes the light panel up there." I explained. Pointing to the small light box in the corner I wiggled my brows. "I thought you were supposed to be physic." She said snidely. Here we go with the Miss. Prissy Einstein attitude. "Yeah well, we all get disappointed now and then." I mumbled. Motioning to the chair I picked up my box of tools and began placing the items on the table. "What's your poison? What tool would you like me to use to 'see' your future?" I asked bitterly. Taking a seat in the chair slowly she stared at the table and all my goodies. "Tool?" She asked. Nodding I grimaced at the thought of telling her a fake fortune when I knew I could really blow her mind. Squashing down those thoughts I tried to paste a smile on my face. "I have an assortment of goodies for you to choose from. I could use tarot cards that I don't know how to read or what they mean. I could try my hand at throwing bones but don't get your hopes up on that one either. Lastly I could use my always cloudy crystal ball. Tell you the truth I could rub a pair of sticks together and have better luck." I said. Though he didn't look interested in what we were doing, apparently Adonis was listening. "You don't sound happy." He muttered. Sighing I glared at the table and all its useless junk. "Oh, I'm not. I couldn't tell you shit from those things even if my life depended on it. Of course I can tell you your future but its policy that no carnival workers have physical contact with any customers." I explained. Laughing Miss. Prissy Einstein shook her head tossing her wavy auburn hair side to side. I couldn't tell if she was laughing at the rules or me for thinking I could actually read her fortune. Adonis stood at the flaps gazing out now ignoring me again as Miss. Prissy Einstein sat there looking like Miss America. Between the two of them I had to admit defeat. They looked like a great couple.

The Academy and Literature

Twenty-three essays by young professional philosophers examine crucial ethical and metaphysical aspects of the Buffyverse (the world of Buffy). Though the show already attracted much scholarly attention, this is the first book to fully disinter the intellectual issues. Designed by Whedon as a multilevel story with most of its

meanings deeply buried in heaps of heavy irony, Buffy the Vampire Slayer has replaced The X-Files as the show that explains to Americans the nature of the powerful forces of evil continually threatening to surge into our world of everyday decency and overwhelm it. In the tradition of the classic horror films Buffy the Vampire Slayer addresses ethical issues that have long fascinated audiences. This book draws out the ethical and metaphysical lessons from a pop-culture phenomenon.

Spam vs. The Vampire

Spam and the other cats at website designer Darcy Dupres house are frantic with worry. Darcy walked out the door two (missed) wet meals ago and didn't return or send anyone else to look after her beloved furry friends. The other cats think she has abandoned them, but her office cat and (unbeknownst to her) protege, Spam, suspects darker forces are at work. Darcy's last project was helping a suspicious character who called himself Marcel deMontreal with a dating website for vampires and the women who dig them. Darcy thought Marcel was playing and besides, he paid her a lot of kitty litter to design the site. But before she can finish, the self-proclaimed vampire announces that he is coming to visit, and Darcy disappears. That and the-duh-black billowy figure with the white face and red eyes peering through the window seem like a dead giveaway to Spam. Using the computer knowledge he learned at his human's side, Spam escapes to the world beyond his home to find Darcy and save his family. When the other cats are rounded up and hauled to the shelter, Spam's only allies seem to be a hungry raccoon, some friendly deer, observant otters and the fact that Marcel happens to be allergic to cats.

"Another scintillating collection of brilliant problems and paradoxes by the most entertaining logician and set theorist who ever lived." — Martin Gardner. Inspired by the classic tale of a prisoner's dilemma, these whimsically themed challenges involve paradoxes about probability, time, and change; metapuzzles; and self-referentiality. Nineteen chapters advance in difficulty from relatively simple to highly complex.
