The Money Book for the Young, Fabulous & Broke

“Humorous and forthright[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun.Dunn’s book delivers.” —Publishers Weekly
The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her “Bad With Money” podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what’s your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. “That’s a very personal question,” they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In Bad With Money, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancelife work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that—even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers—we can all start taking control of our financial futures.

Pat the Money

Two leading figures from the world of finance show how progressives can take their money away from conservative financial institutions and put it to good, lasting social use. The U.S. financial system may be working for some people, but it isn't working for most of us who care about progressive causes. In fact, our financial system taps your money to pay for a conservative agenda. It's a heads-they-win, tails-you-lose game when the fees you pay to use your credit card finance fossil fuels even when you buy green products. Conservative "money muscle" shapes our culture, society, politics, and public policy. In this bold call to action, two leaders from the world of progressive finance propose a strategy to challenge this conservative dominance of the financial sector: organized progressive money. It's a \$10 trillion plan for a full-service, market-scale progressive financial system. Mestrich and Pinsky explain how progressives can take control with financial institutions of their own and products that align with progressive values. *Organized Money* warns that until progressives organize their money, they will lose again and again while conservatives will keep winning. It's a crucial message for the next progressive era, starting with the make-or-break 2020 election cycle, where American voters will be presented with a choice between conservative market fundamentalism that leaves them out or inclusive restorative capitalism that is good for people as well as profits. Written in clear, engaging prose for non-

financial readers and finance leaders alike, *Organized Money* is required reading for everyone ready to confront the excesses of conservative power and influence.

Meet Stephanie Plum, a bounty hunter with attitude. In Stephanie's opinion, toxic waste, rabid drivers, armed schizophrenics, and August heat, humidity, and hydrocarbons are all part of the great adventure of living in Jersey. She's a product of the "burg," a blue-collar pocket of Trenton where houses are attached and narrow, cars are American, windows are clean, and (God forbid you should be late) dinner is served at six. Out of work and out of money, Stephanie blackmails her bail-bondsman cousin Vinnie into giving her a try as an apprehension agent. Stephanie knows zilch about the job requirements, but she figures her new pal, el-primo bounty hunter Ranger, can teach her what it takes to catch a crook. Her first assignment: nail Joe Morelli, a former vice cop on the run from a charge of murder one. Morelli's the inamorato who charmed Stephanie out of her virginity at age sixteen. There's still powerful chemistry between them, so the chase should be interesting...and could also be extremely dangerous.

The Everything Kids' Money Book

The best financial planner Michelle Singletary ever knew was Big Mama, her grandmother. Big Mama raised Michelle and her four brothers and sisters on a salary that never reached more than \$13,000 a year. Yet at her death, Big Mama owned her own home, had paid off a car loan, and had a beautiful collection of Sunday-go-to-meeting church hats and a savings account that supplemented her Social Security check and small pension. Most important, she had taught Michelle "7 Money Mantras for a Richer Life." Those mantras serve as the inspiration for this straight-talking book of practical personal financial advice that really works. The 7 Money Mantras are: 1. If it's on your ass, it's not an asset! 2. Is this a need or is it a want? 3. Sweat the small stuff. 4. Cash is better than credit. 5. Keep it simple. 6. Priorities lead to prosperity. 7. Enough is enough. Michelle Singletary is a syndicated columnist for The Washington Post whose popular personal finance column appears in more than 120 newspapers. She's also a mother of three children who understands what it's like to live on a budget. In a plainspoken, sassy, no-nonsense voice, Michelle provides answers to the financial issues that confront almost every household: how to teach children the value of money; how to address money issues in a relationship or marriage; household saving tips; getting the best loans; and much more. "This book is about saving enough money to have choices," she writes. "It's about feeling free to be cheap if you can't afford to buy a ton of gifts at Christmas. It's about eliminating wasteful spending so you can begin to save and invest. It's full of uncommon commonsense lessons and guidance on the way people should use their money." With humor and down-home financial wisdom, Michelle Singletary offers practical and realistic advice that will help you

live well with the money you have. Michelle Singletary on . . . Romance and Money “It’s okay to say: ‘Honey, I love you and everything, but if you need money, ask your mama.’” Credit Cards “We are minimizing our financial potential by making minimum credit-card payments.” Car Buying “If you want to save money, keep your car until you’re on a first-name basis with the local tow-truck drivers.” Leasing a Car “You, too, can drive a car you can’t afford and then have to give it back. It’s crazy.” Gift Giving “Generosity isn’t about how much you spend. It’s about how much thought you put into the gift.” Penny Pinching “I once bought a stick-shift car because it was \$1,000 cheaper than the automatic in the same model. There was just one little problem. I couldn’t drive a stick-shift. But at least I saved \$1,000!” From the Trade Paperback edition.
