Corporate governance is concerned with holding the balance between economic and social goals and between individual and communal goals. The corporate governance framework is there to encourage the efficient use of resources and equally to require accountability for the stewardship of those resources. This article outlines the relationship between corporate governance and corporate social

Oxford University Press (OUP) - Academic Publishing - Homepage

Governance comprises all of the processes of governing – whether undertaken by the government of a state, by a market, or by a network – over a social system (family, tribe, formal or informal organization, a territory or across territories) and whether through the laws, norms, power or language of an organized society. It relates to "the processes of interaction and decision-making among
