The Richest Man in Babylon

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

In this short, powerful book, multimillionaire and bestselling author Steven K. Scott reveals King Solomon's breakthrough strategies to achieve a life of financial success and personal fulfillment. Steve Scott flunked out of every job he held in his first six years after college. He couldn't succeed no matter how hard he tried. Then Dr. Gary Smalley challenged him to study the book of Proverbs, promising that in doing so he would achieve greater success and happiness than he had ever known. That promise came true, making Scott a millionaire many times over. In *The Richest Man Who Ever Lived*, Scott reveals Solomon's key for winning every race, explains how to resolve conflicts and turn enemies into allies, and discloses the five qualities essential to becoming a valued and admired person at work and in your personal life. Scott illustrates each of Solomon's insights and strategies with anecdotes about his personal successes and failures, as well as those of such extraordinary people as Benjamin Franklin, Thomas Edison, Oprah Winfrey, Bill Gates, and Steven Spielberg. Killers of the Flower Moon

Artist, photographer, writer, world traveler and, above all, explorer, Mary Schaffer Warren overcame the limited expectations of women at the turn of the nineteenth century in order to follow her dreams. Mary, born into a wealthy Quaker family in Pennsylvania, was a precocious child who excelled at school. She was much more interested in the arts and traveling. A trip across Canada in 1889 proved the turning point in Mary's life. Not only did she meet her future husband—doctor and botanist Charles Schaffer—she also fell hopelessly in love with the mountains. After Charles' death, Mary embarked on explorations into the Canadian Rockies at a time when it was not thought proper for a woman to do so. Her most famous trips of 1907 and 1908 resulted in the rediscovery of Maligne Lake and the highly regarded book Old Indian Trails of the Canadian Rockies. Mary eventually settled in Banff and there married her handsome young guide Billy Warren. Since her death in 1937, she continues to inspire young people and women in particular.

The Richest Man in Babylon is a book by George Samuel Clason which dispenses financial advice through a collection of parables set in ancient Babylon. Through their experiences in business and managing household finance, the characters in the parables learn simple lessons in financial wisdom. By basing these parables in ancient times, but involving situations that modern people can understand and identify with, the author presents these lessons as timeless wisdom that is as relevant today as it was back then. The book began in 1926 as a series of informational pamphlets. Banks and insurance companies began to distribute these pamphlets, and the most famous ones were eventually compiled into this book.

After oil was discovered beneath their land, they rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. Her relatives were shot and poisoned. And it was just the beginning, as more and more members of the tribe began to die under mysterious circumstances. In this last remnant of the Wild West—where oilmen like J. P. Getty made their fortunes and where desperadoes like Al Spencer, the "Phantom Terror," roamed—many of those who dared to investigate the killings were themselves murdered. As the death toll climbed to more than twenty-four, the FBI took up the case. It was one of the organization's first major homicide investigations and the bureau badly bungled the case. In desperation, the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to unravel the mystery. White put together an undercover team, including one of the only American Indian agents in the bureau. The agents infiltrated the region, struggling to adopt the latest techniques of detection. Together with the Osage they began to expose one of the most chilling conspiracies in American history. In *Killers of the*

Flower Moon, David Grann revisits a shocking series of crimes in which dozens of people were murdered in cold blood. Based on years of research and startling new evidence, the book is a masterpiece of narrative nonfiction, as each step in the investigation reveals a series of sinister secrets and reversals. But more than that, it is a searing indictment of the callousness and prejudice toward American Indians that allowed the murderers to operate with impunity for so long. Killers of the Flower Moon is utterly compelling, but also emotionally devastating.

Here is a transcription of the recording of the presentation by Earl Shoaff that changed Jim's life and provides the secrets to his success. By the time Jim Rohn reached the age of 25, he was married, had a family and worked as a stock clerk at Sears earning \$57 a week take home pay. Finding himself falling behind on his bills, and with nothing in the bank to fall back on, he knew he wanted more out of life but had no idea on how to make it happen. Then something happened to him that changed his life forever and gave him the answers he was looking for. The same good fortune that happened to Jim all those years ago is about to happen to you! One of Jim's friends told him about a man he had gone to work for. This man was very rich and wise. He had an incredible philosophy about life and he was easy to talk to. His friend talked about this man so much that Jim's curiosity got the better of him and he went to hear what this man had to say. Jim walked into the room and took a seat. He really didn't know what to expect, but he kept an open mind and listened intently as the speaker opened his eyes to a world he never knew existed. A world where you could truly be anything you wanted to be and you could have anything you wanted to have! Jim said of the experience, "To this day, I can't tell you exactly what he said, I just knew that I would have given anything to be like him." Then, standing at the back of the room, he got an idea. He thought that, somehow, if he could just get around this man, maybe he could learn the secrets of wealth and happiness.

New Edition of the Babylonian Talmud: Tract Baba Bathra

The story of Wolfert Webber was said by Louis Stevenson to be one of the finest treasure-seeking stories in the world; and as Stevenson was a very good judge, I am going to tell it to you. Wolfert's ancestor, Cobus Webber, was one of the original settlers who came over from Holland and established themselves on the coast of what is now the State of New York. Like most of his countrymen, Cobus was a great gardener, and devoted himself especially to cabbages, and it was agreed on all sides that none so large or so sweet had ever been eaten by anybody. Webber's house was built after the Dutch pattern, and was large and comfortable. Birds built their nests under the eaves and filled the air with their singing, and a button-wood tree, which was nothing but a sapling when Cobus planted his first cabbage, had become a monster overshadowing half the garden in the days of his descendant Wolfert early in the eighteenth century. The button-wood tree was not the only thing that had grown during those years. The city known at first as 'New Amsterdam,' and later as 'New York,' had grown also, and surrounded the house of the Webbers. But if the family could no longer look from the windows at the beautiful woods and rivers of the countryside, as their forefathers had done, there was no reason to drive a cart about from one village to another to see who wanted cabbages, for now the housewives came to Wolfert to choose their own, which saved a great deal of trouble. Yet, though Wolfert sold all the cabbages he could raise,Éhe did not become rich as fast as he

wished, and at length he began to wonder if he was becoming rich at all. Food was dearer than when he was a boy, and other people besides himself had taken to cabbage-growing. His daughter was nearly a woman, and would want a portion if she married. Was there no way by which he could make the money that would be so badly needed by and bye?
