The Library of Babel

“Wild satire . . . The feckless protagonist, Arthur Dent, is reminiscent of Vonnegut heroes.”—Chicago Tribune The unhappy inhabitants of planet Krikkit are sick of looking at the night sky above their heads—so they plan to destroy it. The universe, that is. Now only five individuals stand between the killer robots of Krikkit and their goal of total annihilation. They are Arthur Dent, a mild-mannered space and time traveler who tries to learn how to fly by throwing himself at the ground and missing; Ford Prefect, his best friend, who decides to go insane to see if he likes it; Slartibartfast, the indomitable vice president of the Campaign for Real Time, who travels in a ship powered by irrational behavior; Zaphod Beeblebrox, the two-headed, three-armed ex-president of the galaxy; and Trillian, the sexy space cadet who is torn between a persistent Thunder God and a very depressed Beeblebrox. How will it all end? Will it end? Only this stalwart crew knows as they try to avert “universal” Armageddon and save life as we know it—and don’t know it! “Adams is one of those rare treasures: an author who, one senses, has as much fun writing as one has reading.”—Arizona Daily Star

The Ultimate Book of Space

2025. Tied in to Baxter’s masterful Manifold trilogy, these thematically linked stories are drawn from the vast graph of possibilities across which the lives of hero Reid Malenfant have been scattered.

The Ultimate Space Coloring Book for Kids

Heavily illustrated guide to dinosaurs.

The Land of Stories: The Wishing Spell

Join Cogz the Robot Dog and discover all about how space machines work, in this bright and fun STEM title. Cogz and his mice sidekicks, Nutty and Bolt, guide the reader through the workings of a rocket, looking closely at all the different parts and discovering information about real space missions and the spacecraft involved, including the Mars Rover and Apollo missions. Covering key STEM themes of engineering, physics, and inventions, and with a fun quiz to test young readers' knowledge, this book will get kids engaged and hands-on with learning. Perfect for vehicle-mad pre-schoolers, the Clever Cogz series lets young readers discover different vehicles, from space rockets to racing cars. Bite-sized text and colorful, informative illustrations introduce the transport topics in a simple, engaging way for young readers with a passion for machines.

National Geographic Kids Ultimate Space Atlas

This book provides a comprehensive look at the world of the dinosaurs, looking at them from both an historical and scientific viewpoint. It takes you through the history of dinosaur hunting, tells you how fossils are formed, and even lets you visit a dig to find out how bones are discovered and excavated.

Ultimate Spotlight: Astronauts

A space coloring book for kids that is out of this world! Welcome to the magical world of 'The Ultimate Space Coloring Book for Kids' where children can color and have fun for hours and hours. Even teenagers and adults with a sense of humour will secretly love this because the pages are drawn with a great deal of imagination and fun!

The Ultimate Book of Dinosaurs

Do you dream of journeying to other worlds? Featuring eight removable NASA posters, gorgeous full-color photography, stunning art, and informative summaries based on 50 years of exploration, this large-format travel guide takes space enthusiasts on a futuristic tour of the solar system and beyond. Along the way, you'll experience what it's like to hike across lunar craters, soar through the winds of Venus, and raft down the rapids of Titan.

The Ultimate Construction Site Book

Flaps, pull tabs, and many other movable parts show young children just what firefighters do all day! From putting out fires to taking care of the fire trucks and rescuing people, firefighters in the city are kept very busy. Chock-full of age appropriate information, this book is an exciting introduction to the world of firefighters.

The Ultimate Book of Space

"Features forty-two scavenger hunts for children and families to participate in outdoors"--

The Ultimate Book of Magic and Witchcraft

The Ultimate Spotlight books have all the fun, facts, and hands-on action of the fabulously successful Ultimate series, but in a focused, more-compact, and affordable format. Flaps, pull tabs, and many other moveable parts show young children how astronauts train for missions into space. Pull a tab to launch a rocket, lift flaps to see inside a space suit, or turn the page to land the capsule safely on the ground. Chock-full of age appropriate information, this book is an out-of-this-world look at astronauts and what they do.

Phase Space

With all the features that made The Ultimate Construction Site Book a bestseller, this oversized volume offers a fact-filled and action-packed look at the amazing universe of outer space. Bursting with 40 flaps, pop-ups, pull tabs, and movable parts, The Ultimate Book of Space provides a richly illustrated, hands-on exploration of space travel, the Earth's place in our galaxy, the solar system, and so much more! Sure to encourage curious young readers to venture deeper into space, this is a must-have book for any budding scientist's library.

The Ultimate Book of Cities

For answers to these questions and many, many more, this ultimate guide will set you straight. Grounded in genetics, identity and brain science, it's all about YOU and what makes you who you are. Find out the facts, tackle the quizzes and try out the home experiments as you embark on a fascinating journey of self-discovery!

Space Rockets

Presents a collection of fifty card games, organized by type and difficulty, and complete with instructions, rules, and strategies.

The Case For Mars

The internationally successful Ultimate Book series expands its scope to embrace—very appropriately—the whole world! The Ultimate Book of Planet Earth offers lots of opportunity for hands-on interaction using flaps, pop-ups, and more! Pull a tab to see how magma erupts from a volcano, turn a page for a pop-up of a mountain range, or rotate a wheel to move the blades of a wind turbine! Planet Earth explores not only the geology of the Earth—oceans, continents, and the formation of mountains and volcanoes—but also its geography, atmosphere, and weather. A valuable reference book for any child!

Big Book of Rockets and Spacecraft

The Ultimate series is a worldwide success because it offers readers an intriguing close-up view of their subject with lots of opportunity for hands-on interaction with flaps, tabs, pop-ups, and more! What better subject than airplanes and airports, endlessly fascinating to children of all ages—from the detailed instruments of a Boeing 747 cockpit to the mysterious innards of a baggage carousel, The Ultimate Book of Airports delivers absorbing information and hours of fun. It's the perfect book to prepare young readers for a first flight!

My Best Pop-Up Space Book

Super Cool Space Facts

Introduces machine learning and its algorithmic paradigms, explaining the principles behind automated learning approaches and the considerations underlying their usage.

The Ultimate Book of Planet Earth

The sounds, sights, and activity of a construction site provide for endless fascination. Packed with more than 60 tabbed moving parts to pull, lift, and explore; crammed with meticulous detail of vehicles, buildings, and techniques; here's a book that will satisfy even the most curious of kids. Whether it's building a bridge or a skyscraper, a giant ship or a tunnel, there's a wealth of color, action, and knowledge to be gleaned on each of the ten spreads of this oversized book. A

wonderful companion to The Ultimate Book of Vehicles on the Spring 2014 Twirl launch list.

Space Chronicles: Facing the Ultimate Frontier

“A compelling appeal, at just the right time, for continuing to look up.”—Air & Space America’s space program is at a turning point. After decades of global primacy, NASA has ended the space-shuttle program, cutting off its access to space. No astronauts will be launched in an American craft, from American soil, until the 2020s, and NASA may soon find itself eclipsed by other countries’ space programs. With his signature wit and thought-provoking insights, Neil deGrasse Tyson—one of our foremost thinkers on all things space—illuminates the past, present, and future of space exploration and brilliantly reminds us why NASA matters now as much as ever. As Tyson reveals, exploring the space frontier can profoundly enrich many aspects of our daily lives, from education systems and the economy to national security and morale. For America to maintain its status as a global leader and a technological innovator, he explains, we must regain our enthusiasm and curiosity about what lies beyond our world. Provocative, humorous, and wonderfully readable, Space Chronicles represents the best of Tyson’s recent commentary, including a must-read prologue on NASA and partisan politics. Reflecting on topics that range from scientific literacy to space-travel missteps, Tyson gives us an urgent, clear-eyed, and ultimately inspiring vision for the future.

Space

Here by popular demand! The Ultimate Book of Horses provides hours of hands-on discovery and comprehensive information on the different breeds of this beloved animal, plus how to care, train, and work with them. With detailed information thoroughly researched and vetted by an industry professional, the book includes more than 40 flaps, pop-ups, pull-tabs, and rotating wheels to create an exciting overview of the world of horses throughout history. Turn a wheel to find out about the different types of work that horses do, lift the flaps to explore the parts of a horse's body, pull a tab to see how a vet takes care of a horse's feet. An essential reference for young horse lovers!

The Ultimate Book of Vehicles

"This atlas takes readers through maps of the solar system, the Milky Way, and deep space, giving them a close look at and locations of planets, supernovas, and other universes. Sky maps will help kids spot these objects in the night sky and maps of planets and our solar system give the kind of detail that National Geographic is known for"--Amazon.com.

The Elegant Universe

"Not many living artists would be sufficiently brave or inspired to attempt reflecting in art what Borges constructs in words. But the detailed, evocative etchings by Erik Desmazieres provide a perfect counterpoint to the visionary prose. Like Borges, Desmazieres has created his own universe, his own definition of the meaning, topography and geography of the Library of Babel. Printed together, with the etchings reproduced in fine-line duotone, text and art unite to present an artist's book that belongs in the circle of Borges's sacrosanct Crimson Hexagon - "books smaller than natural books, books omnipotent, illustrated, and magical."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

The Ultimate Book of Darts

Where does the Express bus take you? How many swans are in the lake at the park? What replaces the shoe repair store? The Ultimate Book of Cities reveals the answers to these questions and much, much more in an oversized fact- and action-packed look at life in the big city! Featuring 59 flaps, pop-ups, pull tabs and movable parts, this all-you-need-to-know guide provides detailed information about what makes a city tick: from the different ways of getting around and what goes on in all the big buildings, to what traffic signs mean and who are all the people who keep the city in tip-top shape! It is a must-have volume to add to a young reader's library of The Ultimate Book series.

The Ultimate Book of Sharks

Vehicles, vehicles, vehicles—nearly 100 of them—in all shapes and sizes! A giant crane hovers over a construction site, a space ship roars into space. . . . Supersized spreads feature marvelously detailed illustrations that just beg to be pored over again and again. Best of all, lots of flaps, popups, pull-tabs, and rotating wheels bring the various vehicles to life. Readers will poke into a ship's hold, explore the innards of a garbage truck, and help demolish a house. Any child who's ever been intrigued by the roar of an engine will adore this extraordinary collection of things on the go, from the everyday to the nearly outrageous—yes, there's even a pooper-scooper scooter!

Space

Since the beginning of human history Mars has been an alluring dream; the stuff of legends, gods, and mystery. The planet most like ours, it has still been thought impossible to reach, let alone explore and inhabit. Now with the advent of a revolutionary new plan, all this has changed. Leading space exploration authority Robert Zubrin has crafted a daring new blueprint, Mars Direct, presented here with illustrations, photographs, and engaging anecdotes. The Case for Mars is not a vision for the far future or one that will cost us impossible billions. It explains step-by-step how we can use present-day technology to send humans to Mars within ten years; actually produce fuel and oxygen on the planet's surface with Martian

natural resources; how we can build bases and settlements; and how we can one day "terraform" Mars; a process that can alter the atmosphere of planets and pave the way for sustainable life.

Cleared for Takeoff

Introduces the superstring theory that attempts to unite general relativity and quantum mechanics

The Ultimate Book of Scavenger Hunts

Designed for toddlers ages 3-5, My Best Pop-Up Space Book is a child's first guide to the universe. Starting with a blast-off sound button featured on the cover -- and embedded on each spread throughout the book -- youngsters will dive into the pages to find large pop-up surprises on every page. All key subjects are covered including Earth, the sun, the moon and stars, space travel, and astronauts, all with fun novelty elements including glittery stars and a full-page gatefold of the solar system. All text is age-appropriate to provide strong educational value, and photographs are clearly labeled and annotated, giving My Best Pop-Up Space Book a level of play and activity that holds the attention of younger readers.

The Ultimate Interplanetary Travel Guide

An in-depth guide to sharks includes information on where they live, how they eat, the challenges they face, and whether or not certain species pose a danger to humans.

The Ultimate Book about Me

The keyword of this book is practicality. It is intended for those who want to practice magic without having to read long theoretical books. The Ultimate Book of Magic and Witchcraft allows you to use magic immediately after opening it.

The Ultimate Book of Family Card Games

Features lists that cover a broad range of subjects including bizarre births, weird jobs, crazy diets, strange phobias, historical oddities, religious scandals, ridiculous criminal acts, and weird superstitions.

The Ultimate Book of Dinosaurs

All of aviation's dangerous, exciting, and most courageous moments are featured within this stunning compendium on flight. Packed with stories of heroic and innovative pioneers, fascinating profiles of remarkable planes from Spitfires to space shuttles, and how-to instructions for making everything from origami helicopters to bottle rockets—all accompanied by sensational photographs, illustrations, and diagrams—Cleared for Takeoff promises to astonish, entertain, and fire the imaginations of everyone with their head in the clouds.

Ultimate Sticker Book: Space

Join the crew, and prepare to explore the galaxy. My Book of Space by Ian Graham introduces young readers to the amazing world of space, space travel, and the vehicles we use to explore it. Large, colorful spreads with action-oriented text reveal the answers every young child wants to know, including why the moon seems to change shape, and how spaceships work. Packed with information and detailed pictures, this book makes an exciting gift and an ideal reference for the budding astronaut in the family.

Life, the Universe and Everything

Discover a universe of fun and amazing facts about space! Take an exciting, fact-filled journey that goes where all great space books for kids should--to our solar system and beyond! Super Cool Space Facts is bursting with info about stormy planets, exploding stars, weird black holes, amazing landers, and more. Blast past other space books for kids with: Galaxies of wonder--Launch into learning with awesome and easy-to-digest facts about everything from asteroids hurtling through space to astronauts on the International Space Station. Entertaining information--Fill your outer space adventure with the jokes, big word alerts, and fascinating mysteries of the universe all space books for kids should have. Full-color photos--See how cool space is with incredible pictures of stars, galaxies, planets, constellations, and more. Super Cool Space Facts brings you out-of-this-world fun--and a must have title for anyone interested in space books for kids.

Ultimate Spotlight: Firefighters

A big book full of rockets and spacecraft to discover. Really huge rockets are displayed with extra fold-out pages.

The Ultimate Book of Horses

From the marvels of the solar system, to the origins of Earth, and the mysteries of dark matter: discover all these and so much more, in this definitive children's guide to space. Beautifully realised, specially commissioned artworks and images

from the most powerful space telescopes reveal extraordinary vistas of other planets, distant stars, and spiralling galaxies. Meanwhile, complex ideas are made simple by clear, easy-to-understand diagrams, fact-packed feature boxes, and ingenious infographics. Are you ready to step into the unknown? Get ready to discover the power of gravity; explore the many moons of Jupiter and Saturn; and behold the fearsome majesty of black holes. It's the ultimate visitor's guide to our Universe! A fantastic book for children aged 8+. ABOUT THE SERIES In order to create reference books deserving of the title 'Ultimate', we have brought together world-class children's authors, expert consultants, sought-after illustrators, and exceptional international photographers. Every title is meticulously researched, and presents information with clarity, passion, and intelligence.

Listverse.com's Ultimate Book of Bizarre Lists

Take a tour of the universe with this breathtaking collection of photographs from the archives of NASA. Astonishing images of Earth from above, the phenomena of our solar system, and the celestial bodies of deep space will captivate readers and photography lovers with an interest in science, astronomy, and the great beyond. Each extraordinary photograph from the legendary space agency is paired with explanatory text that contextualizes its place in the cosmic ballet of planets, stars, dust, and matter—from Earth's limb to solar flares, the Jellyfish Nebula to Pandora's Cluster. Featuring a preface by Bill Nye, this engaging ebook offers up-close views of our remarkable cosmos, and sparks wonder at the marvels of Earth and space.

Understanding Machine Learning

Earth and Space

Alex and Conner Bailey's world is about to change. When the twins' grandmother gives them a treasured fairy-tale book, they have no idea they're about to enter a land beyond all imagining: the Land of Stories, where fairy tales are real. But as Alex and Conner soon discover, the stories they know so well haven't ended in this magical land - Goldilocks is now a wanted fugitive, Red Riding Hood has her own kingdom, and Queen Cinderella is about to become a mother! The twins know they must get back home somehow. But with the legendary Evil Queen hot on their trail, will they ever find the way? The Land of Stories: The Wishing Spell brings readers on a thrilling quest filled with magic spells, laugh-out-loud humour and page-turning adventure.

Ultimate Book of Airplanes and Airports

Explore Ultimate Sticker Book: Space, an out of this world sticker book filled with amazing facts, fun activities, and more than 250 reusable stickers. Learn about stars, planets, black holes, and more while creating your own stellar space scenes. Travel through space with Ultimate Sticker Book: Space. Taking subjects that kids love, from dinosaurs to baby animals to transportation, DK's Ultimate Sticker Book series is being refreshed and updated and now features more than 250 fun, reusable stickers. Packed with activities that allow children to create scenes, match pairs, and complete jigsaws, the activities throughout each book are simple enough for the child to do independently, but engaging enough to keep their interest and help develop dexterity, making these books products parents can trust, and ones that kids will want to keep picking up to learn more about their favorite subjects.

My Book of Space

Share in the euphoria that comes of the “kill shot” by learning the skills and techniques required to play a great game of darts. From the history of the sport to choosing the right type of equipment, The Ultimate Book of Darts is written in an accessible style that is perfect for both novices and seasoned professionals. Dart throwing is now a global phenomenon with new players emerging every day. This amazing sport demands remarkable precision and an agile mind from its competitors. Learn the rules for playing team games and tips for improving your score and ability for more advanced competitions. Author Anne Kramer focuses on the mechanics of dart throwing by discussing the pros and cons of various stances, such as toes square to the line versus one foot behind the other. This guide emphasizes good form over accuracy. If you develop good form, the accuracy will follow. Aside from mechanics this book also discusses the necessary equipment from types of darts to board materials, dimensions, and mounting. Whether you're an expert marksman who competes in a pub league or a guy who just enjoys throwing sharp objects, this is the go-to guide to a longstanding and fun tradition.
