Who's who of Indian Writers, 1999: N-Z

660 tons of Semtex is detonated in a massive explosion in Libya. The operation seems to have gone smoothly, but within minutes of the explosion, CIA agent Richard Lawrence discovers that one shipment of the explosive has been hijacked. Days later, a glory-seeking 'Emir' broadcasts to the world that he is planning a massive terrorist strike against a U.S. landmark. And he gives a time line of one month. Now a desperate chase is on, as the men bent on attacking the U.S. use every weapon at their disposal to evade American authorities. Time and again they prove willing to destroy anything - and anyone - standing in their way. But Hamilton Turbee, an autistic computer mastermind at the newly created TTIC

agency, discovers a way to track them. His flawed genius gives the nation its only chance at stopping the attack . if the American leadership will listen. As the enemies near their destination, it is up to the TTIC team to stop the massive explosion that could destroy the lives of millions.

Perspectives on Publishing

Includes entries for maps and atlases.

Mutual Security Act of 1960

The "Master Key" is here given to the world as a means of tapping the great cosmic intelligence and attracting from it that which corresponds to the ambitions, and aspirations of each reader. Every thing and institution we see around us, created by human agency, had first to exist as a thought in some human mind. Thought therefore is constructive. Human thought is the spiritual power of the cosmos operating through its creature man. "The Master Key" instructs the reader how to use that power, and use it both constructively and creatively. The things and conditions we desire to become realities we must first create in thought. "The Master Key" explains and guides the process Used as thus instructed "The Master Key" will make of the reader a greater, better personality, and equipped with a new power to achieve any worthy personal purpose and a new ability to enjoy life's beauty and wonder.
