Cost Accounting

Pharmaceutics-II

Presents the basic approaches underlying Stafford Beer's thinking since the publication of his first book in 1959. Deals with a philosophy of science relevant to management and particularly with the nature of models. Demonstrates all major points through examples quoted of management science applications to industry and government.

The Virgin Birth of Christ

Financial Accounting for BBA

The essential reference for financial risk management Filled with in-depth insights and practical advice, the Financial Risk Manager Handbook is the core text for risk management training programs worldwide. Presented in a clear and consistent fashion, this completely updated Sixth Edition, mirrors recent updates to the new two-level Financial Risk Manager (FRM) exam, and is fully supported by GARP as the trusted way to prepare for the rigorous and renowned FRM certification. This valuable new edition includes an exclusive collection of interactive multiple-choice questions from recent FRM exams. Financial Risk Manager Handbook, Sixth Edition supports candidates studying for the Global Association of Risk Professional's (GARP) annual FRM exam and prepares you to assess and control risk in today's rapidly changing financial world. Authored by renowned risk management expert Philippe Jorion, with the full support of GARP, this definitive guide summarizes the

core body of knowledge for financial risk managers. Offers valuable insights on managing market, credit, operational, and liquidity risk Examines the importance of structured products, futures, options, and other derivative instruments Contains new material on extreme value theory, techniques in operational risk management, and corporate risk management Financial Risk Manager Handbook is the most comprehensive guide on this subject, and will help you stay current on best practices in this evolving field. The FRM Handbook is the official reference book for GARP's FRM certification program.

Cost And Works Accounting

Psychology Of Human Behaviour At Work

Auditing and Assurance for CA Integrated Professional Competence presents an integrated concepts approach that shows students the auditing process from start to finish. This text prepares students for real-world audit decision making by using illustrative examples of key audit decisions, with an emphasis on audit planning, risk assessment processes and collecting and evaluating evidence in response to risks. This book is an invaluable text for students of IPCC of chartered accountancy course and also for other professional courses as well as students of B. Com and M.Com.

Auditing and Assurance

Problems and Solutions in Advanced Accountancy

Corporate Accounting : Theory & Practice (2Nd Edition)

Advanced Accounts (Complete)

Students Guide To Accounting Standards (Ca-Pe-II)

Accounting for Managers explains how accounting information is used by non-financial managers. The book emphasises the interpretation, rather than the construction, of accounting information and encourages a critical, rather than unthinking acceptance, of the underlying assumptions behind accounting. It links theory with practical examples and case studies drawn from real life business situations in service, retail and manufacturing industries.

Decision and Control

Whether it is a balance sheet of a company, a cinema hall, or of a school; auditing evaluates all! This comprehensive book, now in its second edition, is a compendium of a textbook; a handbook of Auditing Standards; a question bank, and a compilation of model answers. This text is organized in four parts. Part 1 (Principles) enunciates the standards and the concepts, which form the bases of auditing. Part 2 (Process) provides a stepwise description of the auditing process, adopted by the auditors while performing audit engagements. Part 3 (Performance) deals with the auditing engagement and shows how the verification of financial elements such as receipts, payments, purchases, sales, assets and liabilities is conducted. Part 4 (Practice) demonstrates the practical aspects of audits of specific entities such as private limited companies, charitable trusts, hospitals and so on. This book is primarily intended for the students of Chartered Accountancy (appearing for the CA-PCC examination), Cost Accounting, Company Secretary, and postgraduate students of Finance and Accounting. Apart from that, the book is also useful for the practising Chartered Accountants and Financial officers of companies, as a reference handbook. Key Features : Incorporates 67 practical questions (with structured solutions) to help the students to apply the principles to practical situations. Comprises 147 case studies to help identify the issues involved, place them in the right context and arrive at a correct conclusion. Provides 285 innovative true and false type questions (with their reasoned answers) to strengthen the grasp of the subject. Contains 1267 answer-in-brief questions, which are cross-referenced. New to this Edition : Explains all the latest Standards on Auditing applicable for financial years 2009–2010 and 2010–2011. Includes model answers for all relevant descriptive examination questions, asked in the CA-PCC/Final examinations till June 2009. Numerous newly drafted questions (true or false, answer-in-brief, descriptive type) on latest auditing standards with answers/cross references.

A Hand Book Of Practical Auditing

On account of the growing importance of the subject of cost accounting, it has been included as a special subject in all commerce and management courses, conducted by different Indian universities and professional institutes. The present volume, Cost Accounting-Theory & Problems, has been written to meet in full measure the requirements of the students preparing for these courses. The entire book has been divided into Five sections. Section ONE explains the fundamental concepts which are necessary for the understanding of the subject. Section TWO deals with the principles of costing as applicable to certain specific industries. Section THREE explains the accounting methods. In this section besides others, intricate topics of the cost control accounts and integrated accounts have been discussed with complete clarity and simplicity of exposition. Section FOUR refers to costing as a special tool for managerial control. Adequate space has been given to this recent function of cost accounting. And here topics of budgetary control, standard costing, marginal costing and break even analysis have been elaborately

discussed. Section FIVE contains revisionary problems.
