The Unbeaten Path

When Arsene Wenger said he wanted his team to go through a season undefeated, he was roundly mocked, yet just over 12 months later the Arsenal manager guided his team to footballing immortality. The Gunners' 2003-2004 campaign was extraordinary, and not just because of their remarkable league achievement. From the highs and lows of Europe, to disciplinary charges, pitched battles, the frantic scramble to finance a new stadium, a club record transfer deal in January, and winning the title at the ground of the old enemy, this special collector's edition book looks back on everything that happened during an unforgettable campaign. Match reports, behind the scenes stories, exclusive interviews and illustrations, stats, tactics, pictures; all the things you know, and lots of stuff you've forgotten. Together: tells the story of Arsenal's 'unbeaten' season.

My Life As a Mexican Pirate

He was the greatest batsman of his generation and, as captain, possessed the sharpest tactical mind in the game. Bursting onto the scene in 2004 with a Test century on debut, Michael Clarke was Australian cricket's golden boy. And the batting prodigy they nicknamed 'Pup' certainly fulfilled his destiny in a stellar 11-year international career of 115 Tests, 8643 runs and 28 centuries. Clarke's rollercoaster four-year reign as Test captain was marked as much by bravery as brilliance - a 5-0 whitewash of England in 2013-14, the 2015 World Cup triumph, and a ten-hour unbeaten 161, batting with a broken shoulder to lead Australia back to the #1 world ranking in 2014. Yet Michael Clarke also sparked fiercer debate than any other Australian sports star. For a decade his personal life, career fortunes and controversies - real or imagined - were splashed across front pages and scrutinised. Was he simply a hard-working, western suburbs kid living every Aussie boy's dream? Or a 21st century cricketer mired in all the trappings of celebrity? In the echo chamber of social media, the truth about Michael Clarke was warped, then lost. Clarke's enigma deepened but he kept his mouth shut and his dignity intact, knowing the chance to tell his extraordinary story would finally come. And now it has. My Story is the real Michael Clarke, standing up and speaking out for the first time. Bucking the conventions of traditional biography to go hard at the big issues, Clarke speaks fearlessly and poignantly about the scandals, rumours and explosive moments of his life; revealing the amazing truths, private pain and personal triumphs that no one realised. It's the incredible story of a remarkable Australian you never really knew. Until now.

The TRUE story of Pennsylvania's 1957 Cass Township High School Football Team (American Football) that beat every team they played that year. Incredibly, they not only won every game, but they were so tough on defense, their opponents did not score a single point! Cass won the playoff game 2-0 in the cold, rain, and mud with only 15 seconds left. Attention-grabbing pictures documenting the football games and the 1950s are included. This small football team played their games on Thursdays, Fridays, Saturdays, and even played "Monday Night High School Football." In December 1957, the ankle-deep, muddy field was speckled with white snow. It was a cold, dreary, rainy, Saturday afternoon. It had snowed earlier that week and the ground was frozen. That is, until the day before, when it had warmed up and started to rain. By game day, the frozen tundra of a football field had turned into a giant sea of mud. Two great high school football teams in the coal regions of Pennsylvania were about to face off at Pottsville's Veterans Memorial Stadium. It was a special play-off game for the championship of the Southern Division of the PA Eastern Conference. Cass Township, UNDEFEATED, UNTIED, and UNSCORED UPON, had a 9-0 record: the tiny community school with only 55 seniors in the graduating class, and 20 members on the varsity squad, had a championship match-up with Shamokin, a much larger regional school with 10 wins and 2 losses. The book starts with a flashback: Chapter 1, Coach Pat Dreams The year was 1999. Pennsylvania Sports Hall

of Fame coach Pat Droskinis was 83 years old and lay in his bed drifting in and out of consciousness. The old coach knew he was dying of cancer, but wasn't ready to call it quits. Not yet! He had whipped prostate cancer into remission twelve years prior, but the disease returned with a vengeance. Lucid moments at this stage were rare, and he knew his days were numbered. Still, he "kept the faith." Suddenly, some familiar voices and noises startled him. He opened his eyes and saw a few of his favorite football players. Gathered at his bedside were members of the legendary Cass Township championship football team that he coached back in the late 1950s. It is not just a sports book - the 23 chapters contain fascinating historical references about the football games and the 1950s, including the music, the cars, and the news of the day. In chapter 19, The School Board President, Jimmy Ryan, introduced three U.S. presidents campaigning in the local PA coal region area. He was that powerful. One player went on to play in the National Football League, and the Canadian Football League: his story is told in Chapter 22, The Future NFL Player. Chapter 23, Coach Pat's Life, is all about Pat Droskinis' journey from 10 years in the PA coal mines to 25 years in the classrooms and ball-fields. Appendix A, "About the Players," includes information about all varsity players: Appendix B, "Names and Statistics," lists the names, jersey numbers, and astonishing records. " Bouncing footballs do strange things. This one shot right back toward Shamokin's end zone, and Russ Frantz, Cass team co-captain, tried desperately to grab the muddy ball before it rolled out of the end zone, for a touchdown. However, it rolled off his cold and wet fingertips and out of the end zone near a bank of piled up muddy snow."

Arsenal's on-field success has been well documented. But what has never been written before is the equally remarkable history of Arsenal's rebels, both on and off the pitch. Spanning almost 120 years, and set against a backdrop of turbulent social and political change, *Rebels for the Cause* assesses the legacy and impact of Arsenal's most controversial players, officials and matches. From hard men like '30s player Wilf Copping to the reformed wild ones of recent years such as Tony Adams, Jon Spurling highlights the infamous figures whose refusal to conform has made them terrace legends. Mavericks such as '80s star Charlie Nicholas and the 'King of Highbury' Charlie George are here, as are '70s lads Alan Hudson and Malcolm Macdonald. The book also focuses on the club's revolutionary founding fathers, David Danskin and Jack Humble, the terrifying '20s 'soccer Tsar' Sir Henry Norris and David Dein's controversial introduction of free-market economics to Highbury in the regressive '80s. Also investigated are the stories behind Arsenal's most infamous tabloid exposés. Featuring extensive interviews with 15 former players, *Rebels for the Cause* is an indispensable guide to the alternative history of

Arsenal Football Club, shedding new light on the origins of the rivalry with Tottenham, on many of Highbury's cult heroes and on the struggle of several players to adapt to life outside the game.

We All Live in a Perry Groves World - The Heart-warming and Hilarious Account of Life as a Cult Footballer

The stunning new autobiography from Tony Adams, author of the critically acclaimed bestseller *Addicted*. Tony Adams was a charismatic figure on the football field, a true leader for Arsenal and England. He won league titles in three separate decades, and after the Gunners moved to their new stadium at the Emirates, it was fitting that a statue of him was erected outside to celebrate his extraordinary career. But, for much of that time, he was also drinking heavily and eventually admitted in his book *Addicted* that he was an alcoholic. Now, in that book's stunning successor *Sober*, Adams reveals what happened next. He discusses the impact that Arsene Wenger had when he arrived at Arsenal in 1996, and how the manager's new methods helped extend his career and brought new success to the club. Always a great thinker on the game, Adams moved into coaching and management on retirement, playing a key role in Portsmouth's famous FA Cup triumph in 2008, and taking on new challenges in the Netherlands, Azerbaijan, China and now Spain to broaden his perspective. He movingly explains the struggles he's faced to stay sober for twenty years and why he set up Sporting Chance, the charity which provides treatment and support for sports stars suffering from addictions. He gives his incisive thoughts on England's continued failings in major tournaments and assesses why Arsenal have struggled to repeat the title-winning formula of his own time there. *Sober* is a truly inspirational memoir from someone who has battled with his demons, but has continued to take things on, one day at a time.

A fundamental and groundbreaking reassessment of how we view and manage cancer When we think of the forces driving cancer, we don't necessarily think of evolution. But evolution and cancer are closely linked, for the historical processes that created life also created cancer. *The Cheating Cell* delves into this extraordinary relationship, and shows that by understanding cancer's evolutionary origins, researchers can come up with more effective, revolutionary treatments. Athena Aktipis goes back billions of years to explore when unicellular forms became multicellular organisms. Within these bodies of cooperating cells, cheating ones arose, overusing resources and replicating out of control, giving rise to cancer. Aktipis illustrates how evolution has paved the way for cancer's ubiquity, and why it will exist as long as multicellular life does. Even so, she argues, this doesn't mean we should give up on treating cancer—in fact, evolutionary approaches offer new and promising options for the disease's prevention and treatments that aim at long-term management rather than simple eradication. Looking across species—from sponges and cacti to dogs and elephants—we are discovering new mechanisms of tumor suppression and the many ways that multicellular life-forms have evolved to keep cancer under control. By accepting that cancer is a part of our biological past, present, and future—and that we cannot win a war against evolution—treatments can become smarter, more strategic, and more humane. Unifying the latest research from biology, ecology, medicine, and social science, *The Cheating Cell* challenges us to rethink cancer's fundamental nature and our relationship to it.

The African-American football player Chuck Ealey grew up in a segregated neighborhood of Portsmouth, Ohio. Against all odds, he became an incredible quarterback. But despite his unbeaten record in high school and university, he would never play professional football in the United States. Chuck Ealey grew up poor in a racially segregated community that was divided from the rest of town by a set of train tracks, but his mother assured him that he wouldn't stay in Portsmouth forever. Education was the way out, and a football scholarship was the way to pay for that education. So despite the racist taunts he faced at all the games he played in high school, Chuck maintained a remarkable level of dedication and determination. And when discrimination followed him to university and beyond, Chuck Ealey remained undefeated. This inspirational story is told by Chuck Ealey's daughter, author and educator Jael Richardson, with striking and powerful illustrations by award-winning illustrator Matt James.

From the bestselling author of *The Prince of Providence*, a revelatory biography of Rocky Marciano, the greatest heavyweight champion of all time. The son of poor Italian immigrants, with short arms and stubby legs, Rocky Marciano accomplished a feat that eluded legendary heavyweight champions like Joe Louis, Jack Dempsey, Muhammad Ali, and Mike Tyson: He never lost a professional fight. His record was a perfect 49-0. *Unbeaten* is the story of this remarkable champion who overcame injury, doubt, and the schemes of corrupt promoters to win the title in a bloody and epic battle with Jersey Joe Walcott in 1952. Rocky packed a devastating punch with an innocent nickname, "Suzie Q," against which there was no defense. As the champ, he came to know presidents and movie stars – and the organized crime figures who dominated the sport, much to his growing disgust. He may have "stood out in boxing like a rose in a garbage dump," as one sportswriter said, but he also fought his own private demons. In the hands of the award-winning journalist and biographer Mike Stanton, *Unbeaten* is more than just a boxing story. It's a classic American tale of immigrant dreams, exceptional talent wedded to exceptional ambitions, compromises in the service of a greater good, astounding success, disillusionment, and a quest to

discover what it all meant. Like Suzie Q, it will knock you off your feet.

Bob Knight was a head coach in college basketball at twenty-four, coach of an unbeaten NCAA champion at thirty-five, coach of the last amateur team to win the Olympic men's basketball gold medal at forty-three, and out of a job at not quite sixty. His shock, disappointment and anger over Indiana University's manner of firing a twenty-nine-year employee comes through clearly in his account of his last turbulent year there. And it is his account. Few people in sports have had more books written about them. This is the first by Bob Knight - one of the most literate, candid, quoted and outspoken men in American public life telling in this first-person account of his full, rich life. Much of that life has been in basketball, most of it because of basketball, but it also has brought him forward as a coach who has proved academic responsibility and production of championship college athletic teams not only can co-exist but should. His excitement as things start anew for him at Texas Tech is matched here by his characteristic frankness and remarkable recollection of a life he clearly has enjoyed. You'll see why, as he tells story after story - some delightful, some hilarious, some poignant, none of them dull. Knight, as a sophomore front-line reserve on the Ohio State team that won the NCAA championship, became the first man to play on and coach a championship team when he led his 1975-76 Indiana team to a 32-0 season that was capped by an 86-68 victory over Michigan in the NCAA championship game at Philadelphia. His Indiana teams in 1980-81 and 1986-87 also won NCAA titles, making him one of just four coaches in history to win as many as three championships. Twenty-six

years later, the 1975-76 Indiana team still stands as the last unbeaten team in major- college men's basketball. Knight's coaching career includes six seasons at Army, where his teams - during the years when the Vietnam War made recruiting for West Point difficult - won 102 games and lost 50. He is one of five coaches who have won seven hundred games, and the only coach whose teams have won championships in the NCAA tournament, the National Invitation Tournament, the Olympic Games and the Pan American Games. During all that he has been at the heart of more controversies while running a winning and squeaky-clean program than any coach of any sport any time or anywhere. His excitement as things start anew for him is matched here by his candor and remarkable recollection of a life he clearly has enjoyed. You'll see why, with story after story - some delightful, some hilarious, some poignant, none of them dull: the story of Bob Knight's life.

A Night with Saddam

Legions of self-help authors rightly urge personal development as the key to happiness, but they typically fail to focus on its

most important objective: hardiness. Though that which doesn't kill us can make us stronger, as Nietzsche tells us, few authors today offer any insight into just how to springboard from adversity to strength. It doesn't just happen automatically, and it takes practice. New scientific research suggests that resilience isn't something with which only a fortunate few of us have been born, but rather something we can all take specific action to develop. To build strength out of adversity, we need a catalyst. What we need, according to Dr. Alex Lickerman, is wisdom—wisdom that adversity has the potential to teach us. Lickerman's underlying premise is that our ability to control what happens to us in life may be limited, but we have the ability to establish a life-state to surmount the suffering life brings us. The *Undefeated Mind* distills the wisdom we need to create true resilience into nine core principles, including: --A new definition of victory and its relevance to happiness --The concept of the changing of poison into medicine --A way to view prayer as a vow we make to ourselves. --A method of setting expectations that enhances our ability to endure disappointment and minimizes the likelihood of quitting --An approach to taking personal responsibility and moral action that enhances resilience --A process to managing pain—both physical and emotional—that enables us to push through obstacles that might otherwise prevent us from attaining our goals --A method of leveraging our relationships with others that helps us manifest our strongest selves Through stories of patients who have used these principles to overcome suffering caused by unemployment, unwanted weight gain, addiction, rejection, chronic pain, retirement, illness, loss, and even death, Dr. Lickerman shows how we too can make these principles function within our own lives, enabling us to develop for ourselves the resilience we need to achieve indestructible happiness. At its core, *The Undefeated Mind* urges us to stop hoping for easy lives and focus instead on cultivating the inner strength we need to enjoy the difficult lives we all have.

Dan Carter named greatest fly-half in history a one-man phenomenon in a team of them - *The Times*, London, November 2013 Dan Carter's last game as an All Black culminated with him declared Man of the Match following the 2015 Rugby World Cup final - an unforgettable ending to the career of the greatest fly-half of all time. But along with the triumphs of his signature World Cup win, his performance against the Lions in 2005, and an unprecedented run of Bledisloe Cup and Grand Slam successes, there was also the pain and doubt he felt during a prolonged period of injury and rehab following the 2011 Rugby World Cup. He watched that victory from the sidelines, as he had the All Blacks' defeats in two previous tournaments. Indeed, heading into the 2015 Cup he had never finished the competition on his own terms. *Dan Carter - My Story* tells of that redemption, and gets you up close and personal with one of the most celebrated sportsmen of our time. Threaded throughout the book is an intimate diary of his final year as a Crusader and All Black, during which he worked tirelessly to make one last run at that elusive goal: a World Cup victory, achieved on the field. The book is notable for the candour of its subject, the intimacy of its access to one of the most famously private New Zealanders, and the breadth of its coverage of family, business and mateship. It is essential reading for all fans of the All Blacks and rugby union. 'Dan Carter

Say hello to Rocky Marciano, the world's only undefeated heavyweight champion, a guy called Rocky Marciano. With just a 67-inch reach, two left feet and under six feet tall, Marciano blasted his way to 49 wins, 43 inside the distance. You could knock him down but you couldn't knock him out. Marciano KO'd Jersey Joe Walcott in a 1952 thriller to become world champion. Defending his title five times, he brought the million-dollar gate back to boxing in 1955 when he crushed Archie Moore in his final fight. He then criss-crossed the U.S. making public appearances, for cash only. He built a network of friends, businessmen and Mob guys who willingly paid his way and flew him around. And that's how he died, hitching a ride in a plane that crashed in an Iowa cornfield in 1969, on the eve of his 46th birthday. His mantra was, "If you want to live a full life, then live dangerously." Rocky did that, all right!

Inspired by many, including his parents, Thomas pushes himself in every area of his life and boldly chases his dreams.

Probably the wildest travel memoir ever was written. "Grab a strong drink to warm the blood, me hearties, and gather round while I tell you a tale that will forever be burned into your pretty little skulls" It started as a joke: a night out with friends dressed up like idiots. A debauched international pub-crawl followed, but the partying and exotic women weren't enough, and what started off as a bit of fun slowly descended into madness. With sombreros atop their thick skulls and swords hoisted high, they would venture to the most dangerous places on earth and face the consequences. Join naughty nomad Mark Zolo and his crew as they romp through nearly 40 countries across four continents, and skirt civil wars in Syria, Somalia & Cote D'Ivoire. If you like giant inflatable fruit, suicide bombers, light-sabres, hostage situations, psycho-lovers, fake moustaches, police chases, pet chickens, romance, violence, comedy, and adventure this is the book for you! It's a wonder how it ever got written.

Unbeaten Paths

Critically examines influential novels in English by eminent black female writers Studying these writers' key engagements with nationalism, race and gender during apartheid and the transition to democracy, Barbara Boswell traces the ways in which black women's fiction critically interrogates narrow ideas of nationalism. She examines who is included and excluded, while producing alternative visions for a more just South African society. This is an erudite analysis of ten well-known South African writers, spanning the apartheid and post-apartheid era: Miriam Tlali, Loretta Ngcobo, Farida Karodia, Agnes Sam, Sindiwe Magona, Zoë Wicomb, Rayda Jacobs, Yvette Christiansë, Kagiso Lesego Molepe, and Zukiswa Wanner. Boswell argues that black women's fiction could and should be read as a subversive site of knowledge production in a

setting, which, for centuries, denied black women's voices and intellects. Reading their fiction as theory, for the first time these writers' works are placed in sustained conversation with each other, producing an arc of feminist criticism that speaks forcefully back to the abuse of a racist, white-dominated, patriarchal power.

Unbeaten Tracks in Japan

In *Stillness and Speed*, one of football's most enigmatic stars finally opens up about his life and career, revealing the things that motivate and inspire him. Viewed by many as one of the most influential figures in Premier League history, and scorer of the goal that Arsenal fans voted the best in the club's history, Dennis Bergkamp is a true giant of the game. As a youngster, Bergkamp learned from the Dutch master Johan Cruyff. By the time the pupil was ready to graduate from Ajax and move abroad, he was ready to spread the word, but in Italy he found few willing listeners. It was only when he moved to Arsenal and linked up with Arsene Wenger that he met someone else who shared his vision for football's possibilities. Bergkamp became central to everything the club did: now he had become the teacher, their creative genius, and the one who inspired some of the wayward old guard to new heights, helping them to seven major trophies. Few footballers' books make you think anew, but in *Stillness and Speed* Bergkamp presents a new vision for the game and how it might be played. He was a player like no other; his story is told like no other. It is a book that will inspire football fans everywhere, whatever their allegiance.
