Vikings and the Vikings

Covers the different geographical areas of the Viking world, and traces the Viking story from the first raids on isolated coastal communities toward the end of the eighth century to the establishing of permanent settlements

A Thane of Wessex

Vikings

A story of Heathen Vikings enabling Cinaed (or Kenneth) MacAlpin take over Christian Scotland. Cattan, warrior priest and Chief of the Clan Chattan, converted the ambitious, Kenneth of Dal Riada and became his personal advisor. Follow James who became the caretaker Chief, forming alliances against the greater threat of raiding Vikings, by a circumnavigation of mainland Britain noting changes of the time and developing tactics to fight back. The Chattan Fleet's reputation was such, that neither Dane nor Norse wished to take them on, so they went after soft targets, sometimes as paid mercenaries to regain lost lands. Once Vikings settled in the northern isles, Man, and Dublin, they took possession of the east of Angleland that became England, and the west of Alba that became Scotland. Tribal identity became mixed as the kingdoms united but, the people still retained symbols of their ancient origins displayed on local banners, as they rallied to the nearest,

strongest, High King's own standard.

History of the Christian Church, Volume IV: Mediaeval Christianity. A.D. 590-1073.

The Anglo-Saxon Chronicle

Saga-book of the Viking Club

Early Peoples of Britain and Ireland: H-Z

This essay collection is a wide-ranging exploration of Vikings, the television series that has successfully summoned the historical world of the Norse people for modern audiences to enjoy. From a range of critical viewpoints, these all fresh essays explore the ways in which past and present representations of the Vikings converge in the show's richly textured dramatization of the rise and fall of Ragnar Loobrok--and the exploits of his heirs--creating what many viewers label a "true" representation of the age. From the show's sources in both saga literature and Victorian revival, to its engagement with contemporary concerns regarding gender, race and identity, via setting, sex, society and more, this first book-length study of the History Channel series appeals to fans of the show, Viking enthusiasts, and anyone with an interest in medievalist representation in the 21st century.

Mediaeval Christianity, from Gregory I to Gregory VII, A.D. 590-1073

The Oxford Illustrated History of the Vikings

Now, with the chamber boarded up, came what was probably the heart of the proceedings. Four or five dogs and two more oxen were slaughtered, as well as fifteen horses that had first been run to exhaustion. The furniture, tools and carriages scattered across the foredeck were bathed in their blood. Stones were then piled over the ship, breaking many of the grave-goods and rendering them unusable. The sights and sounds accompanying such an orgy of blood-letting we might perhaps be able to imagine, the atmosphere conjured by it probably not. As the mourners then set about completing the mound the sight before them must have been eerie and awe-inspiring, the blood-spattered ship with its cargo of dead women seeming

to lurch forward across the field in a last attempt to shake off the engulfing wave of dark earth rising behind it. The meadow flowers preserved from this stage of the proceedings were autumnal, showing that the whole process from the opening of the furrow to the closing of the mound must have taken about four months. Clearly at least one of the women had died long before the burial took place.

The Hammer & The Cross

An illustrated guide to Viking warfare from strategy and weapons to culture and tradition: “a very excellent introduction to the Viking age as a whole” (Justin Pollard, historical consultant for the Amazon television series Vikings). From the time when sailing was first introduced to Scandinavia, Vikings reached virtually every corner of Europe and even America with their raids and conquests. Wherever Viking ships roamed, enormous suffering followed in their wake, but the encounters between cultures also brought immense change to both European and Nordic societies. In *Vikings at War*, historian Kim Hjardar presents a comprehensive overview of Viking weapons technology, military traditions and tactics, offensive and defensive strategies, fortifications, ships, and command structure. The most crucial element of the Viking’s success was their strategy of arriving by sea, attacking with great force, and withdrawing quickly. In their militarized society, honor was everything, and ruining one’s posthumous reputation was considered worse than death itself. *Vikings at War* features more than 380 color illustrations, including beautiful reconstruction drawings, maps, cross-section drawings of ships, line-drawings of fortifications, battle plan reconstructions, and photos of surviving artifacts, including weapons and jewelry. Winner of Norway’s Saga Prize, *Vikings at War* is now available in English with this new translation. “A magnificent piece of work [that] I’d recommend to anyone with an interest in the Viking period.” —Justin Pollard, historical consultant for the Amazon television series Vikings

The Viking Age

The turn of the first millennium in Anglo-Saxon England was a time of raiding and settlement. The Vikings invaded our shores and our rulers seemed unable to stop them. The Church was in decline, and was apparently unable to cope with this savage and disruptive force.

Early Kings of Norway

After returning from Briton, Ubba Ragnarsson finds out the true extent of the deception and manipulations from those around him, designed to destroy him and his wife, Rosfrith. They embark on a journey of retribution against those who have wronged them. Will they survive the path they have chosen, and finally get the revenge they seek? A historical romance,

which captures the imagination with a story of love, deception, adventures, and revenge.

History of England

Ragnar Lothbrok was a legendary Danish and Swedish Viking hero and ruler. Ragnar distinguished himself by many raids against Francia and Anglo-Saxon England during the 9th century. According to the Tale of Ragnar Lodbrok, Ragnar was the son of the Swedish king Sigurd Hring. Inside you'll read about Ragnar's paternal roots Ragnar's life and loves Ragnar amid the Viking Age And much more! The Great Heathen Army is said to have been led by the sons of Ragnar Lodbrok, to wreak revenge against King Ælla of Northumbria who had supposedly executed Ragnar by casting him into a pit full of snakes.that assessment. They believe that it was another Viking, Turgesius, who may have led raids on Ireland in 837, and not Ragnar Lothbrok.

The White Horse King

Laughing Shall I Die explores the Viking fascination with scenes of heroic death. The literature of the Vikings is dominated by famous last stands, famous last words, death songs, and defiant gestures, all presented with grim humor. Much of this mindset is markedly alien to modern sentiment, and academics have accordingly shunned it. And yet, it is this same worldview that has always powered the popular public image of the Vikings—with their berserkers, valkyries, and cults of Valhalla and Ragnarok—and has also been surprisingly corroborated by archaeological discoveries such as the Ridgeway massacre site in Dorset. Was it this mindset that powered the sudden eruption of the Vikings onto the European scene? Was it a belief in heroic death that made them so lastingly successful against so many bellicose opponents? Weighing the evidence of sagas and poems against the accounts of the Vikings' victims, Tom Shippey considers these questions as he plumbs the complexities of Viking psychology. Along the way, he recounts many of the great bravura scenes of Old Norse literature, including the Fall of the House of the Skjoldungs, the clash between the two great longships Ironbeard and Long Serpent, and the death of Thormod the skald. One of the most exciting books on Vikings for a generation, Laughing Shall I Die presents Vikings for what they were: not peaceful explorers and traders, but warriors, marauders, and storytellers.

Warfare and Society in the Barbarian West 450-900

Viking Britain

A new narrative history of the Viking Age, interwoven with exploration of the physical remains and landscapes that the

Vikings fashioned and walked: their rune-stones and ship burials, settlements and battlefields. To many, the word 'Viking' brings to mind red scenes of rape and pillage, of marauders from beyond the sea rampaging around the British coastline in the last gloomy centuries before the Norman Conquest. It is true that Britain in the Viking Age was a turbulent, violent place. The kings and warlords who have impressed their memories on the period revel in names that fire the blood and stir the imagination: Svein Forkbeard and Edmund Ironside, Ivar the Boneless and Alfred the Great, Erik Bloodaxe and Edgar the Pacifier amongst many others. Evidence for their brutality, their dominance, their avarice and their pride is still unearthed from British soil with stunning regularity. But this is not the whole story. In *Viking Britain*, Thomas Williams has drawn on his experience as project curator of the British Museum exhibition of *Vikings: Life and Legend* to show how the people we call Vikings came not just to raid and plunder, but to settle, to colonize and to rule. The impact on these islands was profound and enduring, shaping British social, cultural and political development for hundreds of years. Indeed, in language, literature, place-names and folklore, the presence of Scandinavian settlers can still be felt, and their memory - filtered and refashioned through the writings of people like J.R.R. Tolkien, William Morris and G.K.Chesterton - has transformed the western imagination. This remarkable makes use of new academic research and first-hand experience, drawing deeply from the relics and landscapes that the Vikings and their contemporaries fashioned and walked: their runestones and ship burials, settlements and battlefields, poems and chronicles. The book offers a vital evocation of a forgotten world, its echoes in later history and its implications for the present.

The Legal Code of Ælfred the Great

Alfred the Great

AQA GCSE History: Migration, Empires and the People

The unlikely king who saved England. Down swept the Vikings from the frigid North. Across the English coastlands and countryside they raided, torched, murdered, and destroyed all in their path. Farmers, monks, and soldiers all fell bloody under the Viking sword, hammer, and axe. Then, when the hour was most desperate, came an unlikely hero. King Alfred rallied the battered and bedraggled kingdoms of Britain and after decades of plotting, praying, and persisting, finally triumphed over the invaders. Alfred's victory reverberates to this day: He sparked a literary renaissance, restructured Britain's roadways, revised the legal codes, and revived Christian learning and worship. It was Alfred's accomplishments that laid the groundwork for Britain's later glories and triumphs in literature, liturgy, and liberty. "Ben Merkle tells the sort of mythic adventure story that stirs the imagination and races the heart?and all the more so knowing that it is altogether

true!" ?George Grant, author of The Last Crusader and The Blood of the Moon

History of the Christian Church: Mediaeval Christianity from Gregory I to Gregory VII, A.D. 590-1073

Guy Halsall relates warfare to many aspects of medieval life, economy, society and politics. This book recovers its distinctiveness, looking at warfare in a rounded context in the British Isles and Western Europe between the end of the Roman Empire and the break-up of the Carolingian Empire. Examining the raising and organization of early medieval armies and looks at the conduct of campaigns, the survey also includes a study of the equipment of warriors and the horrific experience of battle as well as an analysis of medieval fortifications and siege warfare. Warfare and Society in the Barbarian West uses historical and archaeological evidence in a rigorous and sophisticated fashion. It stresses regional variations but also places Anglo-Saxon England in the mainstream of the military developments in this era, and in the process, provides an outstanding resource for students of all levels.

Sons of the Raven

Norway

REVIEWS OF PREVIOUS BOOKS IN THE SERIES I haven't read a bad H A Culley book and I have read most of this author's work. I can recommend his books to anyone Real page Turner. Hooked from the start. The whole series of the books are a great read A very exciting story, but then again I always expect that from this great author Great book, historically accurate and well written SYNOPSIS The sons of Ragnar Lothbrok, the notorious Viking king, vow revenge on King Ælle of Northumbria for killing their father by throwing him into a pit of vipers. They gather a vast host of Danes and Norsemen to invade England and kill Ælle. However, for Ivar the Boneless, Ragnar's eldest son and the leader of the Great Heathen Army, it is more about conquest than revenge. After overrunning East Anglia they annihilate the Northumbrian army outside York. Ælle is captured and suffers the blood eagle, a horrendous way to die. Two young men - Ricsige, Lord of Bebbanburg, and his military tutor, Drefan - escape the carnage and must build a new army if their way of life is to survive. Together they manage to preserve the old Kingdom of Bernicia - the North Eastern part of Northumbria - and hold it against both the Vikings and the Scots, who have long wanted to push their border south to the Tweed. Whilst the Vikings battle against King Alfred of Wessex in the south and expand their territory across the sea in Ireland, Ricsige and Drefan manage to keep the banner of the Wolf flying in an independent Bernicia against all the odds. When Ricsige is killed during negotiations with Halfdan - another of Ragnar's sons and the ruler of the southern half of Northumbria - he is succeeded by his brother, an

imperious and overconfident boy of twelve who ignores Drefan's advice at every turn. Can Anglo-Saxon Bernicia survive?

Laughing Shall I Die

The Sea Wolves

Although based on historical persons from the 9th century, Ragnar Lodbrok and his sons are the subjects of compelling legends dating from the Viking era. Warriors, raiders, and rulers, Ragnar and his sons inspired unknown writers to set down their stories over seven centuries ago. This volume presents new and original translations of the three major Old Norse texts that tell Ragnar's story: the Saga of Ragnar Lodbrok, the Tale of Ragnar's Sons, and the Sogubrot. Ragnar's death song, the Krakumal, and a Latin fragment called the List of Swedish Kings, complete the story. Extensive notes and commentary are provided, helping the reader to enter the world of these timeless stories of Viking adventure.

The Last Viking

List of members in v. 3, 5.

Only Heathen Vikings

Vikings at War

In AD 793 Norse warriors struck the English isle of Lindisfarne and laid waste to it. Wave after wave of Norse 'sea-wolves' followed in search of plunder, land, or a glorious death in battle. Much of the British Isles fell before their swords, and the continental capitals of Paris and Aachen were sacked in turn. Turning east, they swept down the uncharted rivers of central Europe, captured Kiev and clashed with mighty Constantinople, the capital of the Byzantine Empire. But there is more to the Viking story than brute force. They were makers of law - the term itself comes from an Old Norse word - and they introduced a novel form of trial by jury to England. They were also sophisticated merchants and explorers who settled Iceland, founded Dublin, and established a trading network that stretched from Baghdad to the coast of North America. In *The Sea Wolves*, Lars Brownworth brings to life this extraordinary Norse world of epic poets, heroes, and travellers through the stories of the great Viking figures. Among others, Leif the Lucky who discovered a new world, Ragnar Lodbrok the scourge of France, Eric Bloodaxe who ruled in York, and the crafty Harald Hardrada illuminate the saga of the Viking age - a

time which “has passed away, and grown dark under the cover of night”.

What They Don't Tell You About: Vikings

Menaced by Vikings and enemies at court, Queen Emma defends her children and her crown in a riveting medieval adventure Readers first met Emma of Normandy in Patricia Bracewell’s gripping debut novel, *Shadow on the Crown*. Unwillingly thrust into marriage to England’s King Æthelred, Emma has given the king a son and heir, but theirs has never been a happy marriage. In *The Price of Blood*, Bracewell returns to 1006 when a beleaguered Æthelred, still haunted by his brother’s ghost, governs with an iron fist and a royal policy that embraces murder. As tensions escalate and enmities solidify, Emma forges alliances to protect her young son from ambitious men—even from the man she loves. In the north there is treachery brewing, and when Viking armies ravage England, loyalties are shattered and no one is safe from the sword. Rich with intrigue, compelling personalities, and fascinating detail about a little-known period in history, *The Price of Blood* will captivate fans of both historical fiction and fantasy novels such as George R. R. Martin’s *Game of Thrones* series.

God of Vengeance

Nations of the World: Sörensen, S. Norway

In this extensively revised third edition of *The Viking Age: A Reader*, Somerville and McDonald successfully bring the Vikings and their world to life for twenty-first-century students and instructors. The diversity of the Viking era is revealed through the remarkable range and variety of sources presented as well as the geographical and chronological coverage of the readings. The third edition has been reorganized into fifteen chapters. Many new sources have been added, including material on gender and warrior women, and a completely new final chapter traces the continuing cultural influence of the Vikings to the present day. into the twenty-first century. The use of visual material has been expanded significantly, and updated maps illustrate historical developments throughout the Viking Age. The NorseEnglish translations of Norse texts, many of them new to this collection, are straightforward and easily accessible, while chapter introductions contextualize the readings.

The Viking Wars of Alfred the Great

Did you know that Vikings liked to slurp blood soup for supper? Highly-practised in the art of thuggery, the Vikings loved their drink, sacrificed humans in the name of religion and didn't bother with school! Any history book will give you the

boring facts THEY think you should know, but only this one will tell you what the blood-thirsty Vikings were REALLY like

The Price of Blood

FROM THE SUNDAY TIMES BESTSELLING AUTHOR OF LANCELOT Norway 785 AD. It began with the betrayal of a lord by a king . . . King Gorm puts Jarl Harald's family to the sword, but makes one fatal mistake - he fails to kill Harald's youngest son, Sigurd. His kin slain, his village seized and its people taken as slaves, Sigurd wonders if the gods have forsaken him. Hunted by powerful men, he is unsure who to trust and yet he has a small band of loyal followers at his side. With them - and with the help of the All-Father, Odin - he determines to make a king pay in blood for his treachery. Using cunning and war-craft, Sigurd gathers together a fellowship of warriors - including his father's right-hand man Olaf, Bram (who men call Bear), Black Floki who wields death with a blade, and the shield maiden Valgerd, who fears no man - and convinces them to follow him. For, whether Ódin is with him or not, Sigurd will have vengeance. And neither men nor gods had best stand in his way . . . God of Vengeance is a must-read for all who enjoy thrilling, action-packed fiction - from Bernard Cornwell to George R R Martin's Game of Thrones.

History of the Christian Church

The Last Viking is a historical novel set in 9th Century England during the reign of Alfred the Great, when the Viking invasions of Britain were at their peak. Set squarely in the midst of the Dark Ages, the story mirrors the dynamic social, military and political conflicts of the era, when Christian culture and learning were threatened by a wave of barbarism from abroad. The novel tells the story of a Viking prince named Sigli, whose destiny becomes intertwined with the key historical figures of the era as he seeks to avenge his family, murdered in a treacherous act by a rival Danish prince. The narrative remains true to the significant recorded events and personalities of late 9th Century England, spanning a period of sixteen years. The Last Viking is at once an adventure, an epic tragedy and a love story. The novel is laden with layers of conflict - heathen against Christian, church against state, father against child and duty versus love - all of which mirror the unification of England in the Dark Ages. The story's mix of fictional and factual characters illuminates a tumultuous era while presenting readers with a complex and timeless tapestry of life.

History of the People of England

In the spring of 878 at the Battle of Edington the tide of English history turned. Alfred's decisive defeat of Guthrum the Dane freed much of the south and west of England from Danish control and brought a halt to Guthrum's assault on Alfred's Wessex. The battle was the continuation of a long period of preparation by Alfred in the wilderness - a victory snatched

from the jaws of catastrophic defeat. As such, this momentous turning point around which an entire nation's future pivoted, has given rise to legends and misconceptions that persist to the present day. Paul Hill, in this stimulating and meticulously researched study, brings together the evidence of the medieval chronicles and the latest historical and archaeological research to follow the struggle as it swung across southern England in the ninth century. 40 b/w photos

The Hammer and the Cross

Text, with English translation in two formats, of all the Old Norse poetry attributed to women - skáldkonur.

Old Norse Women's Poetry

Create a stimulating, well-paced teaching route through the 2016 GCSE History specification using this tailor-made series that draws on a legacy of market-leading history textbooks and the individual subject specialisms of the author team to inspire student success. - Motivate your students to deepen their subject knowledge through an engaging and thought-provoking narrative that makes historical concepts accessible and interesting to today's learners - Embed progressive skills development in every lesson with carefully designed Focus Tasks that encourage students to question, analyse and interpret key topics - Take students' historical understanding to the next level by using a wealth of original contemporary source material to encourage wider reflection on different periods - Help your students achieve their potential at GCSE with revision tips and practice questions geared towards the changed assessment model, plus useful advice to aid exam preparation - Confidently navigate the new AQA specification using the expert insight of experienced authors and teachers with examining experience

Ragnar Lothbrok: The Incredible Story of The Viking King

This period of British history saw dramatic social, political and cultural changes, characterized by the great movement of peoples. The Stone Age peoples, Bronze Age peoples, Celts, Scots, Picts, Irish, Roman, Anglo-Saxon, Danes and Normans all arrived, settled and (to some degree) intermingled. Each of these peoples has a complex history partly separate and partly shared, sometimes obscure, sometimes distorted in the popular imagination, and the purpose of the encyclopedia is to both highlight specific details and clarify the overall picture. The geographic scope of the encyclopedia is Britain and Ireland, and chronologically it will cover everything from the Neolithic period to 1154. A section of longer essays on key themes will be followed by an A-Z section of shorter entries on specific topics. Entries will vary in length from about 400 words to about 7,500 words. Each entry will include a brief bibliography. This encyclopedia will be a useful reference for nearly every level of research, from general background information on a select topic for the lay reader to the latest and best research and

historiographic trends for advanced researchers.

History of the English Speaking Peoples

The Sagas of Ragnar Lodbrok

Vikings

In an alternate history set in A.D. 865, Shef, son of a Norse raider and an English lady, tries to carve out a kingdom of his own in England, while Christian kings and Viking worshippers of Asgard battle for the country's dominion
