The Encyclopedia of Herbs and Spices provides comprehensive coverage of the taxonomy, botany, chemistry, functional properties, medicinal uses, culinary uses and safety issues relating to over 250 species of herbs and spices. These herbs and spices constitute an important agricultural commodity; many are traded globally and are indispensable for pharmaceuticals, flavouring foods and beverages, and in the perfumery and cosmetic industries. More recently, they are increasingly being identified as having high nutraceutical potential and important value in human healthcare. This encyclopedia is an excellent resource for researchers, students, growers and manufacturers, in the fields of horticulture, agriculture, botany, crop sciences, food science and pharmacognosy.

Wild Garlic

'Inspirational' Cara Delevingne Whether you live in a house or flat, in a rural or urban environment, this beautiful book shows how to harness the natural world around us and feel more grounded and rooted in our surroundings. The Wild Journal is a beautifully illustrated guide from leading florist and nature writer Willow Crossley. Guiding you through creative practical projects and therapeutic seasonal reflections, The Wild Journal celebrates the potential of nature to mend, heal and transform our mood. The simple, back-to-basics habits and small seasonal changes in the book can help everyone to counteract the unpredictability and chaos of everyday life. Wherever you live, there are simple mindful actions - from listening to birdsong instead of rushing on your commute, to collecting natural treasures such as feathers, branches, pebbles or pine cones. Willow shares her creative techniques for bringing nature into your daily routine - whether it's planting and potting, identifying wild flowers, trying your hand at beautifully simple flower arrangements or making your own essential oils and candles. There is space to record reflections and your favourite seasonal activities, as well as ideas for star-gazing, bird-

watching, and so much more. Willow Crossley's creative approach is informed by an artistic eye and a life spent immersed in nature. From growing up in Wales where days were spent exploring outdoors and flowers adorned every surface, to living in France surrounded by fields of sunflowers, iris and fragrant lavender, nature has always been an intrinsic part of her everyday life.
