Teen Pregnancy

For fans of HBO's *Girls*, Abigail Ulman's heartbreakingly tender and often darkly funny fiction is a fresh take on the experiences of contemporary young women. "A familiar yet highly inventive collection of short fiction which hits virtually all my buttons: dark humor, complex female characters, and a strong summer camp storyline."—Lena Dunham, *Lenny Claire* is magnetic. On the cusp of adulthood and letting go of her adolescence one miserable responsibility at a time, she's moved from London to San Francisco to work toward her PhD and minor in cheap whiskey, pour-over coffee, and guys who can't be bothered to shower. When she finds out she's pregnant by a heartsick ex-boyfriend, the solution seems clear, if only to her. Kira is a talented thirteen-year-old Russian gymnast who leaves her traditional family to travel to America. Elise and Jenni, two Australian high school students, seek asylum from the hooking up and heavy drinking they've been doing for years by reenrolling in their childhood sleepaway camp. Over the course of nine loosely connected stories, *Hot Little Hands* introduces us to young women, at once clever and naïve, who struggle to navigate the chronic uncertainty and very real dangers that come with being impatient for the future and reluctant to leave childhood behind. Abigail Ulman's voice feels of the moment—sharp and powerful—as she deftly explores ageless themes of sex and maturity among girls who are both confident and frighteningly exposed. Praise for *Hot Little Hands* "In this sardonic, smart, and thoroughly modern debut collection, Ulman presents nine stories about young women on the verge of adulthood, motherhood, and more who make momentous decisions while delirious with desire."—O: *The Oprah Magazine* "[Ulman] excels at dialogue and narrative. The more you get to know her

characters, the funnier it is to witness their verbal code-switching as they navigate between nosy parents, fumbling love interests, and trusted friends. That none of these stories is constrained by any need for tidy endings makes them all the more believable.”—The Atlantic “Deftly written with a fresh and realistic style . . . Each female protagonist is wonderfully complicated and charming in her own way.”—Bookreporter “The captivating women in this collection leave a lasting impression.”—Publishers Weekly “Genuinely insightful . . . Hot Little Hands is the rare collection that portrays how life pivots around mundane moments as readily as earth-shaking events.”—Shelf Awareness “It is rare for a collection to so adeptly capture the way life can be at once facile and intense. Ulman’s details are lifelike and droll, her style lucid and engaging, and the overall effect stirring.”—Kirkus Reviews “A noteworthy debut. . . . Ulman writes without judgment, and this is what gives her characters life. They are multifaceted, flawed beings—sometimes victims of others, but often victims of their own actions—in whom readers will recognize flashes of themselves.”—Booklist “The stories are beautifully paced, the dialogue perfect. There is a lovely comedy underpinning the cool tone. Often this becomes hilarious, but it is also controlled and well-judged. Abigail Ulman knows how to write a story, manage a buildup, hold your attention, suggest that somehow nothing much is happening while, in fact, everything is going on.”—Colm Tóibín, author of Brooklyn

For Jane Jones, being a vampire is nothing like you read about in books. In fact, it kind of sucks. She's not beautiful, she's not rich, and she doesn't "sparkle." She's just an average, slightly nerdy girl from an ordinary suburban family (who happens to be vampires.) Jane's from the wrong side of the tracks (not to mention stuck in the world's longest awkward phase), so she doesn't fit in with the cool vampire kids at school or with the humans kids. To top it all off, she's battling an overprotective

mom, a clique of high school mean girls (the kind who really do have fangs), and the most embarrassing allergy in the history of the undead, she's blood intolerant. So no one's more surprised than Jane when for the first time in her life, things start to heat up (as much as they can for a walking corpse, anyway) with not one, but two boys. Eli's a geeky, but cute real-live boy in her history class, and Timothy is a beautiful, brooding bloodsucker, who might just hold the key to a possible "cure" for vampirism. Facing an eternity of high school pressure, fumbling first dates, or a mere lifetime together with Timothy, what's a 90-something year-old teen vampire to do? Fans of the Vladimir Tod Chronicles, *You are So Undead to Me*, and *Jessica's Guide to Dating on the Dark Side* will feast on this deliciously readable, smart, and fantastically funny debut. From the Trade Paperback edition.

Pornland

Professor Gail Dines has written about and researched the porn industry for over two decades. She attends industry conferences, interviews producers and performers, and speaks to hundreds of men and women each year about their experience with porn. Students and educators describe her work as “life changing.” In *Pornland*—the culmination of her life’s work—Dines takes an unflinching look at porn and its affect on our lives. Astonishingly, the average age of first viewing porn is now 11.5 years for boys, and with the advent of the Internet, it’s no surprise that young people are consuming more porn than ever. But, as Dines shows, today’s porn is strikingly different from yesterday’s *Playboy*. As porn culture has become absorbed into pop culture, a new wave of entrepreneurs are creating porn that is even more hard-core, violent, sexist, and racist. To differentiate their products in a glutted market, producers have created profitable niche products—like teen sex, torture porn, and gonzo—in order to entice a generation of desensitized users. Going from the backstreets to Wall Street, Dines traces the extensive money trail behind this multibillion-dollar industry—one that reaps more profits than the film and music industries combined. Like Big Tobacco—with its powerful lobbying groups and sophisticated business practices—porn companies don’t simply sell products. Rather they influence legislators, partner with mainstream media, and develop new technologies like streaming video for cell phones. Proving that this assembly line of content is actually limiting our sexual freedom, Dines argues that porn’s omnipresence has become a public health concern we can no longer ignore.

Barron's Teen-age Sex Counselor

Just as other beckoners of the dead had previously conjured up, it is now Milford's turn to raise the dead, only this time with the elixir of South Carolina Moonshine. The evil mortician invokes the demons of the bottle to resurrect his card partner inside the embalming chamber. The word rise reverberates throughout the room as voodoo drums resonate a frenzy staccato of jumbled pulses. Milford pours fluid into the zombie's open mouth. A bit of the nectar overflows down the side of the cadaver's jaw and splashes to the floor. All at once, the corpse's extremities spasmodically jerk. The body thrashes wildly, seemingly fighting off the choking sensation of the potion. A blood-curdling cough blasts into the commotion of the room. Unassisted, the corpse's torso slowly eases upward, as if an invisible lever cranks the spine. The drums reach a crescendo. The once dead man flings one arm outward while making a horrendous sound as the drums pound out a deafening boom. Milford shouts to his live assistant, Hold him, damn it. Do you want him to kill us all? The action never stops in South Carolina: Island in the Sea of States, Vol. II.
